

**THE BRUNSWICK**  
**The Brunswick Does Not Limit Your**  
**Choice of Records**

Buy any other fine phonograph and you are confined to the one line of records produced by the manufacturer. By The Brunswick you are not held down nor limited in your selection of records. The Brunswick plays all records. "Play them better," Brunswick owners say.

Owners of one-record phonographs have always felt the handicap of a limited selection. They wanted to hear other artists than those recorded on the one line of records, but this was impossible. They could only hear them by going to some neighbor who had another make of machine, or by going to some phonograph shop.

In their own home they had to forego many choice records.

Now with The Brunswick you may buy any record you choose. You may hear any artist, any band, any orchestra; in fact, all music—is at your command.

**Incomparable Tone**

Another outstanding advantage of The Brunswick is its remarkable tone. This is gained by an all-wood sound-chamber built like a violin. No metal is used. So the Brunswick tone is full and round, with no foreign noises.

Hear The Brunswick and compare its tone with any other. It does not tire a trained musical ear to recognize The Brunswick's superiority. You will appreciate it instantly.

We will be glad to play any of your favorite records, whatever make on The Brunswick. Also to point out its many features. And we will show you what you save on each model as compared with others. Come in now. A demonstration does not place you under the slightest obligation. We are always glad to demonstrate this remarkable phonograph.

Prices \$32.50 to \$180

**Flood Relic Found in Colorado**

A Royal Arch Masonic emblem that belonged to the late John L. Ayers, of this city, who lost his life in the Heppner flood, was received by S. W. Spencer, secretary of the Heppner Chapter, from the Masonic lodge at Mesa, Colorado, the accompanying letter stating that the emblem had been picked up in the woods in the wilds of the Colorado mountains. The emblem was worn by Mr Ayers as a fob and was on him when he met his death. It was probably picked up and retained as a souvenir of the flood, later carried to Colorado and lost there. That it should be found and returned to its rightful owners after such lapse of time and distance is little short of the marvelous.
