

THE BRUNSWICK
The Brunswick Does Not Limit Your Choice of Records

Buy any other fine phonograph and you are confined to the one line of records produced by the manufacturer. By The Brunswick you are not held down nor limited in your selection of records. The Brunswick plays all records. "Plays them better," Brunswick owners say.

Owners of one-record phonographs have always felt the handicap of a limited selection. They wanted to hear other artists than those recorded on the one line of records, but this was impossible. They could only hear them by going to some neighbor who had another make of machine, or by going to some phonograph shop.

In their own home they had to forego many choice records.

Now with The Brunswick you may buy any record you choose. You may hear any artist, any band, any orchestra; in fact, all music—is at your command.

Incomparable Tone

Another outstanding advantage of The Brunswick is its remarkable tone. This is gained by an all-wood sound-chamber built like a violin. No metal is used. So the Brunswick tone is full and round, with no foreign noises.

Hear The Brunswick and compare its tone with any other. It does not take a trained musical ear to recognize The Brunswick's superiority. You will appreciate it instantly.

We will be glad to play any of your favorite records, whatever make, on The Brunswick. Also to point out its many features. And we will show you what you save on each model as compared with others. Come in now. A demonstration does not place you under the slightest obligation. We are always glad to demonstrate this remarkable phonograph.

While breaking a colt at the Kilkenny ranch last Sunday, Pat Mollaha was thrown from the saddle and kicked on the leg, sustaining a bad fracture of that member. He was brought to Heppner and is now in the local hospital, where he is mending rapidly under Dr. Winnard's care.

J. B. Cason has sold his 65-acre farm just above town to Frank Monohan, whose ranch the property adjoins.
