"PROTECT OUR SOLDIERS WITH LIBERTY BONDS"

Message of United States Senator McNary to People of Oregon

Money is needed to support and protect our soldiery now fighting in a foreign land and the prompt purchase by the American people of Liberty Bonds will supply the funds. Much of the money heretofore obtained by the government through the sale of Liberty Bonds to its citizens has been expended in the preparation of war. Now our resources and our savings must be devoted to a considerable extent in providing for the safety, comfort and assistance of our heroes on European battlefields. Three thousand miles of ocean intervene and this long lane must be made safe for our soldiers. Ships we must have in ever increasing numbers. Without tonnage the full measure of our elaborate and military relief organizations must remain inoperative. Without money we cannot build the ships; without the ships we cannot win the war. With sadness we anticipate the return of thousands of our soldiers wounded and crippled who must be rehabilitated or made capable through vocational education for self support. General hospitals in which physical reconstruction work and vocational training can be undertaken must be constructed. This requires money. A great army is going forward to face the fire of battle and American dollars will be forthcoming for their welfare if we all perform our duty and buy liberally of these Liberty

And when the Tuscania was torpe doed, with the loss of more than one hundred American lives, her eldest son, William Moore, made the great sacrifice for his country. On the rocky coast of Ireland he lies buried in the which enfolds others of his con rades in mms.

The other two sons of Mrs. Moore who were also on the Tuscania, are listed among those saved. The joy over their safety has been tempered only by the grief which followed the word of William's passing.

"I told those boys I was sorry that there was occasion to go to war," said Mrs. Moore, smiling through the anguish that was her portion in the days following the Tuscania disaster. "But I told them also," she added with a triumphant smile, "that if our country was worth living in and enjoying when things were going along smoothly, it was certainly worth fighting for when It was in trouble."

That is the spirit of American motherhood in these days of trial and sacrifice. 'Our country has not asked much of its young people in the way of sacrifice," said Mrs. Moore, "Things have been fairly easy for most of the boys and girls of this generation. Now it is their time to show how they have appreciated all that has been given to

THE BALANCE OF POWER

OVER THE TOP

SHALL WE SEE IT THROUGH OR QUIT?

The Government is finding it necessary to call upon us three times within a year to provide by subscriptions to Liberty Loans, sums of money hitherto considered of fabulous proportions. These facts should impress upon us as no mere words could do, the intense seriousness, the stern necessities, of the situation.

Continued acquaintance with the more serious aspects of life is apt to breed indifference, and to distort our mental vision. As the soldier shudders with horror at his first sight of carnage, but later becomes hardened, so are we apt to become complacent under conditions which call actually for increasingly strenuous

The Liberty Loan with its original accompaniments of novelty and noise appealed to our national love of a new sensation. In the Third Campaign much of the novelty will be lacking, but the serious purpose behind the campaign will have grown. Our money was needed when both the First and Second Liberty Loans were floated, but it will be more than ever needed when the Third Loan is called for. Our army has grown, our national pay-roll has grown, the needs of our allies have grown, the necessity of forever banishing the unspeakable menace of Prussianism has grown. No longer can we hope that the entrance of this country into the struggle will induce an early peace. More arrogant, more desperate than even the German Government puts forward its impossible claims upon the rights and life of humanity.

Our Government in its growing need is calling upon us to give up our line will give them additional money Every American who has accepted with which to lend financial aid to the luxuries, is conscripting the lives of our sons, is controlling trade, labor, and prices, with an ever increasing earnestness and firmness of pur-

THRIFT AND CONSERVATION

Last year at this time the great cry was conservation. This year it is urged by the Government to conserve of the farms and fields and factories. Greater crops were urged, and canning of the day. This year the nation is being taught the lesson of spending its money wisely. The nation is being shown the importance of putting every

cent where it will do the most good. Conservation and thrift go hand in The fact that the farmer is being told this year to be thrifty does not mean he is not to plant every acre available and till his crops carefully and harvest them when they are ready for the reaper. It means that he must invest wisely the money he gets for the splendid crops he has

demonstrated he is able to raise. The farmer, as a rule, can find some thing for which to spend almost every dollar he gets. There always is ma-chinery to be bought or repaired, notes to be met, fertilizer to be purchased, harness, lubricating oil and groceries and clothing to be paid for in the neighboring town. But in the last few years most of the thrifty farmers have been so well paid for their produce that they are now "on their feet," or more nearly so than ever before.

This country has been good to them, for they have lived in peace and have been provided by the Federal Loan Bureau with cheap money with which to pursue the arts of peace. Any economies they can practice at this what Hart says: time will give them additional money courness and fair dealing.

Every dollar loaned to the Government is a practical protest against the plans of a greedy, unscrupulous, soulless power intent on world conquest, and every dollar thus advanced serves to shorten the period of war and bring enduring peace.

EVERY WOMAN CAN HELP NEXT LIBERTY LOAN

Woman's Committee for Twelfth Federal Reserve District to Form an Organization

By MRS. A. S. BALDWIN

(Chairman Woman's Liberty Loan Committee, Twelfth Federal Reserve District)

Now that we are actively in the war and our men are in the front line trenches; are being killed; are being cassed; are being maimed for life, it would seem that every woman in the and should be in the front ranks of the civilian workers to help the men

Each of us has her part to play, nowever small it may be, and whether it be great or small it is of importance that each shall perform her part to the utmost of her ability.

Some can buy Liberty Bonds, some can influence others to buy. Perhaps some can only help by conserving the use of food and clothing and by economizing in household expenditures, thus liberating and augmenting the essentials which must be sent "over there" for the use of our army and for the destitute civilian population of our allies.

In whatever way each woman of this Twelfth Federal Reserve District thrift. Last year the nation was can help, let her do her utmost that we who are farthest from the front the natural resources and the products | may sustain our part of the struggle, and keep for ourselves and our children the blessings and privileges we clubs and city gardens were the order have inherited, and thus make it possible to win like blessings for the millions who are now in actual bondage.

We should not only save to help out the great lesson to be learned also is to do now without non-essentials and o make sacrifices so that the labor which produces what we consider to be even essentials may be used to produce those things which are actually essential for the support and safety of those who are carrying the burden of this unprecedented struggle for freedom and democracy.

The aim of the Woman's Liberty Loan Committee is to form an organization which shall make the woman in every home in the land realize these conditions and her responsi bility, that the message shall not reach her only from one direction, but from many, so that she shall be brought to a full realization of her responsibility.

PAY THAT DEBT, SAYS BILL HART

William S. Hart, of moving picture fame, is one of the enthusiastic ad vocates for a general response to the Government's appeal for subscrip tions to its Liberty Loans. Here i

"Every American who has accepted Government in its great war for right- and has lived the large and free life bought by the blood of many brave and devoted men, and passed on to us a priceless heritage, has a chance now to repay.

"It is for him at this instant to testify to the world what he knows he owes his country.

"He should at once, and cheerfully give a little of his goods that his country has secured to him.

"He should promptly say to the world, which is listening, and perhapynically criticising: 'When my coun try asks me for I to or for money I cheerfully offer both."

'He should demonstrate that ps triotism is some dng greater and ore sacred than an idle sentiment

"And in contributing according to his means for the high purpose placed before him by his President, he should appreciate that in reality he is mak ing no gift, but is investing in the greatest security in the world-THF PLEDGE OF THE UNITED STATES

A BADGE OF HONOR

A Liberty Loan button is a badge of honor. Rightfully obtained it marks the wearer as one he has performe a distinct, definite service to the country.

Not all can fight not all can work directly for the Government; but in buying a Liberty I can Bond, or War Savinga Stamps, every American ren ders some service to the nation. I has been put wit in the reach and ower of every citizen to aid the United States financially; it is a poo-American who withholds support from the Government, from our soldiers and callors fronting death on battlefields

Iron crosses to German soldiers and diamond orders exchanged be tween Torkish and Terman sovereign may be but the more of atrocity but a Liberty Lou- button, simple as it is, alumifies a patriotic duty done and is an insignia of honor.

"All that our sol lers need is a still better rear organization." - George Glemenceau, for ler Premier of France, Jan. 14, 1916. It is up to you to provide that by buying Liberty Bonda.
