THE RED CROSS

During the past ten months the American Red Cross has expended an aggregate of \$100,000,000 in relief and welfare work made necessary by the world war.

The work accomplished is well worth all it has cost and immeasurably more. Countless thousands of starving children, homeless and wretched men and women, sick and wounded soldiers and homesick "rookies" have been fed and clothed and healed and comforted.

Another drive is planned for next week, during which Morrow county people have been asked to contribute \$10,000 as their quota of the money necessary to carry out and expand the work of the Red Cross.

Morrow county has never been found wanting when money was needed for any worthy cause, and she will not lag in the work which is cut out for her next week.

WAR TIME PUBLICITY

The government of the United States, backed by the people of the United States, is out to win this world war which is being waged by the allied nations in and for the cause of democracy vs. autoeracy and we are going to win just as sure as the sun will rise again tomorrow morning.

That this end may be accomplished in the shortest possible time and with the least possible number of casualties among the man power of our armies money is being spent like water. Today, as a people, we reckon our war budget in billions with the same unconcern that we formerly spoke of national or state expenditures in millions, or our personal business affairs in dollars and cents.

ma's or corporations for such of their commodities as they need. There seems to be but one exception to this rule and that is in the matter of seeking publicity through the medium of the newspapers of the country. When the government needs to sell a few billion of war bonds, or to promote an increased production of food stuffs, those in charge of public affairs immediately begin to flood every newspaper office in the country with advertising matter for which free space is asked.

If the government needs newspaper advertising to induce the people of the country to buy Liberty Bonds as a means of winning the war the government should pay for that space the same as it pays for ships or guns or wool or cotton or transportation.

The government now operates the railroads of the country and they charge the regular fare, plus a war tax for riding on the trains. What would be the result if the government were to adopt the plan of refusing to pay the trainmen on the ground of economy and then propose to the trainmen that they must go through the coaches on every trip and pass the hat among the passengers for money with which to pay themselves for running the trains, with the implication that any passenger who refused to contribute should be looked upon as a slacker or a more or less dangerous citizen.

This summons is served upon you by publication thereof once a week for six weeks in the Heppner Herald, a weekly newspaper of general circulation, published at Heppner, Morrow county, Oregon, by virtue of an order made and entered herein on the 10th day of April, 1918, by the Honorable C. C. Patterson, County Judge of Morrow County, Oregon, and the date of the first publication is April 26, 1918, and the date of the last publication will be June 7, 1918.

Another Good Investment

WE paid out some Red Cross money a while back. Paid it out--and forgot it. That's how much it hurt. Might not be a bad idea to have a look at what that money has been doing.

That money went, dollar for dollar, where it did a full day's work, wherever it was.

Three cents of it may have had the honor of disinfecting with iodine the three torn wounds of an American soldier on the French front. Or it may have had the less noble responsibility of pinning a warm flannel belly-band around six-year-old Antoine out back of Noyon.

No use,---we can't figure this Red Cross task in cents' worth.

There's the whole path of ruin from Belgium to Switzerland, just to visualize one thing at a time. If your Red Cross money went there it very likely provided pots and pans, food and clothes, beds and blankets, for the repatriated people.

Three years ago these people were prosperous and contented---self-respecting, steady, saving, hard-working, everyday, small-town citizens.

Now they have the "earth under them and the sky over them"---not one thing else.

It's for you to say whether this great work of mercy shall stop.

The Red Cross is yours, just as our Army and Navy are yours; yours to support with the same fervor and loyalty that leads you to the bottom of your purse for Liberty Bonds.

It's for your voice to say whether your Red Cross shall falter now or sweep onward, greater and more helpful than ever before.

And it's your dollars that must answer.
