R. M. Hymer is suffering from a broken leg, the result of an accident Tuesday evening. Mr. Hymer was coming to town with his wife in the latter's car when something went wrong with the gear and the machine left the road and turned over. Mr. Halvorsen was not injured.

Meat Must Be Sold

Fresh meat is perishable. It
must be sold within about two
weeks for whatever it will bring.

A certain amount of
beef is frozen for foreign
shipment, but domestic
markets demand fresh,
chilled, unfrozen beef.

Swift & Company can-
not increase prices by
withholding meat, be-
cause it will not keep fresh
and salable for more than
a few days after it reaches
the market.

Swift & Company cannot tell
at the time of purchasing cattle,
what price fresh meat will bring
when put on sale. If between
purchase and sale, market con-
ditions change, the price of meat
must also change.

The Food Administration
limits our profit to 9 per cent on
capital invested in the meat
departments. This is about 2
cents per dollar of sales. No
profit is guaranteed, and the
risk of loss is not eliminated.

As a matter of fact, meat is
often sold at a loss because of
the need of selling it before it
spoil.
