Sam Notson, who being prosecuting attorney and food administrator is supposed to know, reports to the Herald that Tom Boyd was running around loose in town Wednesday which, he says is better than to be running around tight. Sam no doubt speaks from experience.

The Heppner War College held a rather exciting session last Sunday when the fake report that Germany had surrendered unconditionally gained circulation. One dead game sport overlooked a \$20-piece of easy money because he was so "darned hopeful" that the report might be true.

A letter to her husband from Mrs. E. W. Spencer, who with Mr. and Mrs. A. L. Ayres is visiting at Payette, Idaho, says that when the party reached Huntington they found that town under seven feet of water caused by a cloudburst in the canyon above the town. Roads and bridges were impassable and the travelers were obliged to stop over night at a private residence at the edge of town not being able to reach the hotel.

John Brown was in from Butter creek during the week making arrangements to winter his stock cattle on Willow creek. He has bought a large quantity of straw on the Warner ranch, near Lexington, and is having feed yards built. About 100 head of stock will be wintered there. Mr. Brown and Dillard French wintered a band of their cattle on straw last winter and the experiment proved a success.

In Tuesday's casualty list appears the name of Sergeant Frank Burns of Condon, Sergeant Burns enlisted in the service early last spring and within six weeks after

his enlistment he was at the front in France. He was the son of Mr. and Mrs. Frank Burns, of Condon, his brothers, James D. and Gerald Burn being prominent business men of that city. Mrs. Ed Breslin, of Heppner, is his cousin. His mother received word from Washington announcing his death which occurred August 31st, no farther details being given.

**Wars are won with  
metal—save it.**

Iron and steel are needed for tanks, guns, ammunition, ships, railroads, etc. Folks at home must save iron and steel to help win the war.

Use the old range until after the war.

Make your old range do a little longer by having it repaired. If it's past repairing, then the next best step is to buy the range that saves fuel, food and repairs. The Majestic's heat-tight riveting prevents fuel waste; its perfect baking prevents food waste, and its unbreakable malleable iron and rust-resisting charcoal iron make repairs a rare need.
