

CANDIDATES MUST "DOLL UP"

Will Have to Look Their Prettiest if They Expect to Find Favor With Woman Voters.

It is not necessary to go away from home to find either the latest or best, regardless of what is wanted. Consider eyebrow arching, for instance. A local beauty salon announces to the public that it does eyebrow arching, and explains that this operation "gives the eyes a deep, soulful expression with everlasting charm." Eyebrow arching advice for woman electors is more or less superfluous. It is to the men, and more especially to the men who aspire to public office, that this beauty hint is directed.

Throughout the country women are getting the ballot on equal terms with men. Women cannot vote in Indiana, but they are going to have that privilege before long. So many women have been enfranchised that they now hold the balance of power in this nation. So the woman vote will be more and more a real political problem to the candidate.

Some electors care little for the personal appearance of candidates, but most of them prefer a man of character, one who at least is presentable. Candidates in the future will have to bear this in mind. It will be well, in order to match rival candidates, for each to have a good tailor and an advisory committee on the proper shade of cravats. Immaculate linen will have to be in every candidate's platform. The high arched eyebrow will be even more essential to candidates than to the average woman. Doubtless those who have political aspirations will begin early, because eyebrow training takes time.—Indianapolis News.

SAID ICE CREAM "BURNED"

Think of It, French Kiddies Had to Be Coaxed to Partake of Strange Delicacy!

Striking proof of the well-known fact that extreme heat and extreme cold have the same physical properties was recently furnished by "Jugger" Crane, the scientist-philosopher of Company B, —th engineers, when he fed some American ice cream to a group of French children, says the Spitzer.

The inhabitants of the French farmhouses near the camp had never seen any ice cream until "Jugger" took them over a mess kit full of the great American delicacy.

The children gathered around expectantly. The first one took a spoonful and at once began to weep and declare that the strange food was hot.

The others who had watched rather horror stricken the fate of the first became convinced that it was some sort of white fire and would have nothing to do with the cream.

The mother had to eat virtually all the cream in order to induce them to believe it was cold rather than hot and that when not taken too fast, was good to eat. Eventually, the children ate the last of the dish.

But they partook of it gingerly, evidently greatly mystified that anything which first seemed hot, then cold, could be good to eat.

Learns of the War.

A woman was discovered in this city yesterday who has lived all through the great war and did not know that it was going on. She is an aged woman of German birth. Her age kept her from telling her about the horrors of the invasion of Belgium and of the sinking of the Lusitania. He didn't wish her to worry and fret. But the day of the peace demonstration made it impossible to keep silent. The old lady heard the whistles blowing and the crowds cheering and she demanded to know what it was all about. When they told her she raised her hands in a gesture of imprecation and said: "Oh, if only I could get these two hands on the kaiser!" The interesting part of her story is that her husband was a German soldier. The gray uniform was so detested by him that he made his wife, before his death, promise that she would come to America so that none of their sons ever would be compelled to wear the livery of the kaiser.—New York Sun.

Victim of Popular Song.

Lawrence Kellie tells of an amusing experience he had over the song, "Douglas Gordon." He was introduced one evening to a gentleman whose name he did not catch. "I have no desire to meet you, Mr. Kellie," said the stranger. Kellie naturally looked a little astonished, but said nothing. "In fact," the other went on, "I hate the very sound of your name. For months past my mother has been worried by the receipt of telegrams and letters of condolence on my behalf, and the thing is beginning to get monotonous." "I'm sorry," said Kellie, "but what's that got to do with me?" "Well, I'll tell you," said the other. "My name's Douglas Gordon, and everybody imagines that your conformed song refers to me." And with that he turned on his heel and went.

Send for a Bomb, Sir.

The excited voice of the mother of George H. Elliott of the firm of Broad, Elliott & Harrison, announced that an old house owned by Mr. Elliott was burning.

"Is it still burning?" inquired Mr. Elliott, with some anxiety in his voice. When informed in the affirmative, he replied, with much relief, "Well, there is nothing that I can do," and told his mother to notify him if the fire was in danger of going out.—Indianapolis News.

FIFTH LIBERTY LOAN NEEDED

In a statement sent to Governor James K. Lynch of the Federal Reserve Bank, Secretary of the Treasury Carter Glass has exploded the rumor that the saving of more than fifteen billion dollars as the result of the armistice has removed the necessity of another Liberty Loan.

Secretary Glass's statement follows: "A rumor has reached the Treasury that a mistake has been made by the authorities, that from \$15,000,000,000 to \$17,000,000,000 has been returned to the Treasury as a result of the armistice and that therefore another Liberty Loan is unnecessary. The rumor is absolutely unfounded. I suppose it has its origin in a failure to understand the discussion of the proposed repeal by Congress of \$15,000,000,000 of appropriations and authorizations. This does not mean a return of money to the Treasury but a cancellation of authority heretofore given by Congress to expend money in the future.

"As a matter of fact, the whole proceeds of the Fourth Liberty Loan and of all previous loans had, at the time the armistice was signed been expended or anticipated by Treasury certificates of indebtedness issued during the summer and early fall to finance the current requirements of the government and at that time outstanding and unpaid."
