

## The Paint Season

This is the time of the year when the spirit of cleaning gets everybody and the first thing that should come into your mind is the value of painting up your premises. We are exclusive agents in Heppner for the famous

### Bass-Heuter Paints

—these paints are recognized as the very best that can be bought and we offer you them in every tint and shade.

We also carry a full line of KYANIZE in all shades. This varnish is made for the particular housekeeper who wishes to touch up the little places around the house that are not sufficiently large to call in a painter. And for retouching the furniture where it has become marred. Let us demonstrate them to you.

We would be glad to talk over your paint needs with you.

**PEOPLES HARDWARE COMPANY**

## Spring Time is Paint Time

Say Mr. House Owner isn't this weather getting into your system and making you long to see the old home shine again like it did when it was new? Don't you realize that a new coat of paint would bring back all its freshness—that it would again have that new appearance of which you were so proud when you first built it? This is the time of the year to start in work—and you know how badly it needs it.

We wish merely to call your attention to the fact that we have a full line of standard paints—every color or tint that you possibly could think of. Besides every thing needed for the interior decoration of your home.

### Of Interest to the Ladies

We have a complete line of Chlanel for touching up and refinishing these old pieces of furniture that you prize so highly—and this work will come right along with the spring house cleaning. These varnishes are prepared so that they do not require the services of a painter—and you've no idea the amount of good you can do in one room with a few of these colors. We've every one you could want.

## It May Be True That a Cat Has Nine Lives---

But it's a cinch your car has only one—so why not get the best from that one life, all the pleasure there is in operating your car is when it is in first class running shape. You can only do this when the repair work and up-keep on your car is trusted to men who know their business—who understand the many little things that worry the motorist—who know just what to do in each case.

We pride ourselves on our reputation for looking after the details—the small things that make a world of trouble—and if your car is left in our care these small worries will be forgotten.

Prolong the life of your car by giving its care over to us.

We wish to particularly call your attention to our Battery Department. We operate our own rebuilding station—maintaining a man who does nothing but attend to this work. We offer you free inspection of all kinds of batteries and free distilled water. By availing yourself of our battery service you are saved the long wait and expense entailed in sending your batteries away.
