HEPPNER, OREGON, TUESDAY, JUNE 3, 1919

NUMBER 5

## BILL ELKS WILL HOLD FRONTIER CARNIVAL

### TO RAISE COUNTY'S SALVATION ARMY QUOTA

Popular Order to Show Appreciation For Services Rendered Doughboys By Salvation Lassies

Are you an old timer? If you are it will warm the cockles of your heart to go down to the fair pavilion next Saturday evening and take part in the "Forty-nine" Carnival. Are you a native-born kid or a newly arrived tenderfoot? If you are either it will be a liberal education to you to attend this joy-feast and see for yourself just how your dad and his pards trod the primrose path in the good, old days when this old town was new.

The carnival will give a picture of old Heppner or other frontier towns, in the palm days, and all timers will guarantee there will not be a dull moment.

There will be a regulation bar with every known beverage on sale at early day prices and the advertising matter announces that the drinks will be as harmless as the German navy and a whole lot easier to take. There will be faro and roulette, and all the different varieties of poker and for a consideration, the management will supply you with seeds of money so you can play the blue sky as the limit and for once in your life turn yourself loose for a hazy time.

There will be six-guns and lariats, and chaps and spurs and broad-brimmed hats and real cowboys and maybe some Indians. There will probably be some gun fights—as harmless as the drinks—and a lot of other frontier stuff that will be well worth while.

The people responsible for all this orgie of wickedness are the members of Heppner Lodge No. 358 Benevolent and Protective Order of Elks and the cause of their activity at this particular time is that a drive is on to raise a fund with which to finance the Salvation Army for the coming year and Morrow county has been called upon to put up \$1200 to this worthy fund. The Elks got wise to what the Salvation Army lassies were doing for the doughboys over in France many months ago and their backing to the army, while the war was still on, meant countless millions of doughnuts and cans of coffee to our boys in the trenches.

In this case the Elks decided to sponsor the Morrow county quota and they propose to raise the entire amount at this '49 carnival next Saturday evening.

Are you going to be there? Surest thing you know. If you are a live one they couldn't keep you away from that pavilion next Saturday night with a six-gun and a four-year-old club.

## IRISH CONVENTION AT PORTLAND

Fishermen from all over Oregon met in convention in Portland last Sunday to enter vigorous protest against the ratification of any league of nations that fails to recognize the independence of Ireland from English rule. Francis A. McMenamin, of Heppner, who represented Morrow county at the meeting, was one of the principal speakers and made a strong appeal urging for the cause of Erin. Resolutions were adopted urging Senators Chamberlain and McNary to insist on recognition of Ireland's claim in the league program before its ratification in the senate.

## MEMORIAL DAY FITTINGLY OBSERVED

Memorial Day was fittingly observed in Heppner last Friday when a fair sized audience gathered at the Federated church where appropriate program was carried out. Francis A. McMenamin was the principal speaker and his address was one that pleased and delighted the audience.

Following the services at the church a procession was formed and the congregation proceeded to the cemetery where the graves of 21 heroes of the civil war were decorated. A large number of citizens visited the cemetery earlier in the day.

## FIRE AND HAIL INSURANCE

For Fire and Hail Insurance call on C. C. Patterson, second floor of Gilman building, on Willow street.

## EIGHTH GRADE EXAMINATIONS

The regular annual eighth grade examinations will be held in the several districts of the county Thursday and Friday, June 12th and 13th. It is the duty of the president of the school board of each district to preside at this examination and also to employ some competent person to conduct the examination.

## MORROW MAY PLAT RESIDENCE ADDITION

### SIGHTLY PROPERTY ON EAST SIDE BEING CONSIDERED

Terraced Blocks With Winding Driveways Would Offer Attractive Locations for Builders

J. W. Morrow, former pioneer resident of Heppner but for several years a resident of Portland where he is connected with the tax department of the O. W. R. & N. Co., has been in the city for a week looking over his acreage on the east side and making arrangements for having surveys made with a view to having the property platted and placed on the market for residence purposes.

Mr. Morrow owns about 40 acres on the hillside above the milling company's ditch and realizing the growing scarcity of suitable residence lots he has decided to investigate the possibilities of his property for that purpose. With that end in view he has employed Loy Turner to make surveys and plats of the property and when that is done he will definitely decide on future procedure.

The present plan so far as worked out is to develop a terraced addition on the hillside immediately above the ditch, starting a winding driveway near the old school house property and gradually climbing the hill to his south line back of the court house where the street will swing around in a broad curve and again gradually climbing to the school house property when another swing and easy climb will bring the driveway to the summit. From there back the ground lies well and the lots can be laid out in the ordinary manner.

The only drawback with this property at present is that it lies too high to be properly served by the present water system but Mr. Morrow is of the opinion that when the new gravity system is brought in from the mountains a higher reservoir will furnish an abundance of water for the property.

## REAL ESTATE ACTIVE

Mrs. Lena Snell Shurte has sold her residence property to Silas Wright who in turn recently disposed of his residence to F. M. Lovgren, of Eightmile.

C. C. Patterson also recently sold his residence property to Mrs. Mary Perry, of Rock Creek, who will take immediate possession. Judge Patterson and family have taken apartments in the new Gillman building, on May street, where in addition to setting up their family domicile the judge will also have his insurance and U. S. Commissioner's office.

## GUILD PARTY PLEASANT AFFAIR

The bridge party given by the ladies of the Episcopal guild last Thursday evening in the Odd Fellows building was one of the pleasantest social affairs of the season. A large crowd was present and all report a splendid time. An enjoyable musical program was given during the evening and excellent refreshments were served. It is understood the ladies realized a handsome sum which will be used for painting the church.

## GOT HIS NAME MIXED

This one drifted up from Cecil the other day on that north wind and is therefore rather dry: The phone bell rang in the office of Tom Lowe, merchant prince of Cecil, and that gentleman took down the receiver: "Hello," spoke a dulcet, feminine voice over the wire. "Madam," growled Tom, in his sternest tone, "I do not like the manner in which you address me over the telephone." "Why, what's the matter with the way I address you?" demanded the surprised lady. "Well, madam," drawled Tom, "most folks call me Tom Lowe, you persist in calling me Hel Lo," and she hung up.

## Here's Your Hat

## Judge Ben Lindsay Writes Of Salvation Army Work in France

Judge Ben Lindsay of Denver came home from France with some direct information as to the spirit of the soldiers towards the Salvation Army. He wrote at length but here are a few pertinent paragraphs:

"Listen to some of the stories they tell me: 'You see, Judge, the good old Salvation Army is the real thing! They don't put on no airs. There ain't no flub-dub about 'em and you don't see their mugs in the fancy magazines much.

"Why, you would never see one of them in Paris around the hotels. Good Lord, you'd never know they existed, Judge, unless you came up here as close to the front as the colonel will let you!"

"Why, Judge," said an enthusiastic urchin—yes he seemed just that, so boyish in his enthusiasm—after the battle yesterday we couldn't get those women out of the village until they'd seen every fellow had at least a dozen fried cakes and all the chocolate or coffee he could pile in! We just had to drag 'em out, for the boys love 'em too much to lose 'em—we weren't going to take no chances—not much—for our Salvation Ladies!"

"And, say Judge," chirped a rudely-faced, stomach-joyed kid, "these guys don't preach to us, neither. They just feed us up—that's what they do. And when you see what those ladies are doing, how the hell can a kid keep from being good! That's just a faint glimpse of our boys before the peaceful, lovely fire-

lights of the Salvation Army in France.

"And when I came to British headquarters I heard of a thousand wonderful things the Salvation Army has done and is doing for the 'Tomnies' and I think of the thousands other good things they are doing for our boys, too.

"When I left France just a few days ago—as that actual few weeks now seems—I went over to call on Captain Archie Roosevelt, one of the four brave sons of the man the American soldiers asked me most about. And Archie looked so fine and yet so pale from the long weeks of suffering in the hospital I felt I might be wearing on his strength to talk too long, and when I was about to leave a light came in his fine face and he fairly shouted to me, 'You tell Dad when you see him that the first chance he gets to be sure and say a good word for the Salvation Army. They are the real thing over here, Judge!'"

"And after hearing Archie relate the tales of their heroism, as he had personally witnessed it with our dead and dying and wounded and hungry boys, you couldn't help but to take off your hat and shout for the Salvation Army, and, what is more important, go down in your purse and dig up all you've got to spare for them. The other war charities are all right, but the words of the boys everywhere over there ring in my ears over here: 'Whatever you do, don't forget the Salvation Army.'"

## GOOD ROAD BOOSTERS VISIT IRIZON AND BOARDMAN

A party of good road enthusiasts drove over to Irizon and Boardman yesterday making the trip in the interest of the Morrow county road bonding measure—and all other good road and progressive measures on today's ballot. Those making up the party were: F. R. Brown, S. E. Notson, L. A. Hunt, W. L. McCaleb and Vawter Crawford.

## DONATE \$20 TO ARMENIANS

School district No. 39 is a joint district between Morrow and Gilliam counties the school house and all of the pupils belonging in Gilliam county. Despite that fact however, reports Mrs. Lena Snell Shurte, county school superintendent, when the children of the district learned from her something of the conditions in Armenia, they at once arranged to donate \$20 from the proceeds of a basket social held a short time ago, to the Armenian relief fund.

## A QUIET ELECTION DAY

The election is passing very quietly in Heppner today and reports from other sections of the county indicate a similar condition at most of the polling places. Present indications are that a very light vote will be polled in the county with prospects for carrying the road bonding measure and other good road questions.

## STREETS BEING GRADED

City marshal Crowell and Jeff Jones were busy last week grading and leveling Heppner's streets. Mr. Jones' Yuba tractor and a big grader were used for the work and good results were obtained.

## NEW BUILDING FOR ELKHORN RESTAURANT

Frank Roberts has commenced work on a new concrete building on his Willow street property which will be occupied by the Elkhorn restaurant as soon as completed. The building will be 34x60, one story and of fireproof construction.

## NEW HOSPITAL PROPOSED

A meeting is called for this afternoon at the fair pavilion for the purpose of discussing the feasibility of building a new and modern hospital in Heppner. The meeting has been advertised all over the county and it is expected that a representative gathering will be present. Morrow county undoubtedly needs a modern institution of this kind and it is to be hoped that something definite will come out of today's meeting.

## COUNTY HISTORIAN APPOINTED

Mrs. Annie Spencer, chairman of the Morrow county Red Cross chapter asks the Herald to announce that Mrs. Arthur McAtee has been appointed county historian for the Morrow county chapter.

## BIG RANCH DEAL ON

Rumors circulating yesterday in real estate circles were to the effect that a deal is on whereby C. A. Minor and R. A. Thompson are to become the owners of the Stanfield Bros. big stock ranch on upper Rhea creek. The deal involves some 5800 acres, mostly fine grazing land and the price is said to range around the \$50,000 mark.

## FARMERS, PICNIC TO BE BIG JUNE ATTRACTION

### MORROW HUSBANDMEN TO VISIT SHERMAN COUNTY

Will Inspect Moro Experiment Station and Look Over Sherman's Marvelous Wheat Fields

The Sherman county farm bureau has arranged to hold its annual picnic at the Moro experiment station on June 14th. They have chosen several prominent farmers of the county, who are recognized as successful wheat growers to address the gathering upon the farm practices and soil tillage that really gets results. There will also be some good talks on tractor farming by men who have used the iron horse for a number of years.

At noon a regular farmers' picnic, the kind that leaves a taste in your mouth for the next month.

After noon Mr. Stephens, who has had charge of the Moro county experiment station for the past seven years will conduct the tour of the experimental plats covering over 300 acres.

He is a regular farmer's man with a scientific training who talks good farmer common sense and has absolute figures to prove what he says. Here will be seen growing side by side fifteen hundred varieties of wheat; think of it. They will be at their best at that time.

He is conducting between three and four thousand separate and distinct experiments in soil culture and plant varieties.

On the morning of June 13th the tour will leave the county agent's office and passing through Gilliam county, will be met at the Sherman county line by their county agent, C. C. Calkins, and conducted over several typical farms.

We shall see at first hand how our neighbors have achieved the success we, ourselves, covet.

Our soil, climatic conditions and rainfall are so similar that with little qualification what they have done we can do.

This is an opportunity no farmer can afford to neglect. See the farms, the farmers' and the farming that really win.

Hear practical men give practical talks upon the most vital questions to the grain growing section of this county.

This will be no hoarist's hot air, but the hard boiled logic of the men who have absolutely made good at the same game that you play.

You cannot afford to miss it. Plan to be one of the party and give me your name if possible before June 10. Free transportation will be provided for any whose car may for any reason be not working.

L. A. HUNT, County Agent.

## CONCERNING RECONSTRUCTION

One way to help things as the Ohio State Journal suggests, is for everybody to go to work. This is the way the Journal puts it: "We have got to get back to work. So much loafing will have to stop. All reformers, officials, public benefactors, moral splitters and returned soldiers must go to doing something that will help the country. If we could all get to work at something useful, we would have 20 cent more leisure than we now have to give to the real life. The idleness of one man causes drudgery in another. There are many remedies suggested for these days of reconstruction, but the only one that is to be commended heartily is to stop loafing, squabbling, profiteering, getting rich and go to work at something worth while."

## PETERSON TIRE WELDERS FOR SALE

The D. M. & C. K. vulcanizer known as the Peterson Tire Welder, for mending casings and inner tubes. Also mending gum and cement. I do all kinds of tire mending. D. J. DONHOUSER. 4-5

## CITY DADS HOLD BUSY COUNCIL MEETING

### MCCARTY RESIGNS; M. D. CLARK APPOINTED TO FILL VACANCY

Engineer's Report Filed—Fire Menace to be Abated—Streets to be Oiled or Sprinkled

Business was good at the regular meeting of the city council Monday evening. There was not a dull moment and much business connected with the common good of Heppner was transacted.

The resignation of Councilman McCarty, who has been a member of the body for a number of years, was accepted, the cause of the resignation being that Mr. McCarty expects to be absent from the city for several months during the summer.

Percy Garrigus, a heavy property owner on Main street took up the matter of connecting his septic tank with the city sewer the request being granted. Mr. Garrigus also called attention to the unsanitary condition and fire menace in the rear of certain property in the same block in which his property is located and demanded relief. Mayor Vaughn stated that he had personally called attention of the owner to these conditions and had received assurance that the same would be corrected and he assured Mr. Garrigus that there would be no more delay.

Regular bills were audited and allowed.

Marshal Crowell reported that the basting of the rock bluff on upper Main street was not satisfactory and would probably require more shooting.

The report of Burns & McDonnell engineers employed to make surveys and estimates for the proposed gravity water system was filed with the exception of the Ditch creek feature which has not yet been completed. The report is considered very favorable. The favorite proposition is to take the water from the left fork of Willow creek, some fifteen miles above town and carry it by pipe-line to the city. The city attorney was instructed to proceed at once to look up the legal status of the city in regard to water rights and right of way and to report at the earliest possible moment. As soon as the mayor and councilmen have had time to thoroughly examine the engineer's report and also determine the exact status of the city from a legal standpoint they propose thru the press and by a public mass meeting to take the people fully into their confidence regarding the project, explain the situation from every angle and then submit the entire question to a vote of the people.

It was decided to obtain oil, if possible for the streets and if that is unobtainable to start the water sprinkler.

## COMMENCEMENT EXERCISES AT IONE

This is commencement week at the Ione high school, the interesting exercises starting last Sunday evening with a baccalaureate sermon preached by Dr. H. P. Bates, of Forest Grove, in the Congregational church.

Commencement exercises and the presentation of diplomas will be held at the Ione rink, tomorrow (Wednesday) evening with the following interesting program:

Music, Ione Orchestra. Invocation. "My Heart's in the Highland," High School Girl's Chorus. Music, Ione Orchestra. Male Trio: "We Meet Again Tonight, Boys," Charles Cochran, Eldred Corson, Joseph Lowell. Address, "Progress and Prudence," S. H. Peterson, Oregon Agricultural College. Music, Ione Orchestra. Presentation of Diplomas, H. M. Cummins. "Good Night, Beloved," Mixed Chorus.

The '19 class at Ione is somewhat unique among the ordinary high school classes of the state for the reason that only boys make up the personnel of the class. Usually there are more girls than boys complete the high school work but with Ione it is different.

Edison Morgan, Eldred Corson, Chas. Cochran and Joseph Lowell are the four young men who complete the school work at Ione this year.

Jeff Neel and family have taken housekeeping apartments in the new Gilman building.
