SERVICE

LOOKING AHEAD

Every good business sets aside a certain percent of its income as a surplus fund to tide it over rainy days.

What part of your income is set aside for the non-producing days which are sure to come? Start a Savings Account in the First National Bank, for that purpose. Save all you can and we will add 4% interest compounded every six months.

Y. W. C. A. UNIFORMS TO CLOTHE STUDENTS

Suits Worn by War Workers Will Be Given to Penniless Students in Switzerland.

Official uniforms of the Young Women's Christian Association minus the Blue Triangle, the Association insignia, will be worn next winter by women students who have been stranded in Switzerland during the war and who, because of lack of funds, inability to re-enter their native country, a desire to finish their university courses or because they have no family to which to return, will remain there next year.

Elizabeth M. Clark, who has been in Switzerland for ten years under the World Student Christian Federation, has appealed to the National Student Committee of the Y. W. C. A. for clothing for the 300 foreign women students in Switzerland. The scarcity of clothing last year among these almost refugee students made it necessary for two girls to share one coat so that only one could go to classes or go out of doors at a time.

Four large packing cases of all kinds of used clothing, save hats, which is in good condition, have been collected hastily from women college students in the New England States, Ohio, West Virginia, Pennsylvania, Maryland and Delaware by the Student Committee of the National Y. W. C. A. to be sent over in response to Miss Clark's appeal. This clothing will be dyed, cleaned and made over in Switzerland.

In addition to the clothing collected from students in colleges nearest New York a case of uniforms, which have been turned in by Y. W. C. A. secretaries who did war work, and the official gray uniform ulsters is being sent. As uniforms are being turned in by war workers they will be claimed by the Student Committee, which will remove the insignia and prepare the uniforms so that they may be worn by these women who have been forced by world events to remain in Switzerland for several years.

GOOD GARDEN IS BIG ASSET

Useful for Fresh Vegetables and Surplus May Be Stored for Use During Winter.

A good garden is very useful for fresh vegetables. Where there is a surplus the vegetables may be stored and saved for future use. In this way you may have nice vegetables, easily and quickly served in winter. The result will be better and cheaper living from the farm.

LOCAL ITEMS

Lumber is being assembled on the ground for the new Gilliam & Bisbee building at Main and May streets.

C. E. Carlson, well known farmer of the Gooseberry section lost another valuable horse Saturday presumably from some weed poisoning. Mr. Carlson and his neighbors have lost several valuable animals lately from the same mysterious cause and it would seem that some of the government experts in such matters should make an investigation and try to discover the cause and a reliable remedy.

After serving for many years as a member of the city council and the Heppner school board and also acting as chairman for the Morrow county Victory Liberty Loan drive, W. G. McCarty has resigned as councilman, closed up his liberty loan campaign and will soon leave for a well earned vacation in California, where he expects to spend most of the summer visiting relatives and friends and investigating the trout streams in the mountains and the various beach resorts along the coast.

E. R. Huston was called to Albany last Friday by the death of his father, John Huston, a pioneer resident of Linn county.

FOR SALE—Latest Werner edition of the Encyclopedia Britannica; 32 volumes; one more volume will bring it down to present date. Good binding. A bargain at less than one-half first cost price. Enquire at this office. 6-11.

LOST—Shepherd dog six months old white with brown spot around each eye; brown spot in middle of back. Liberal reward for return or for information leading to recovery or to identification of party seen picking him up Saturday night, May 31st. Joe Robbins, Box 596, Heppner, Oregon. 6-8

DEMAND FOR FARM LABOR EXCEEDS SUPPLY

The demand for farm help still exceeds the supply that is available at this time. There are several calls this week for milkers at wages ranging from \$75 to \$100 per month with room and board for experienced men. While no calls have yet been received for workers in the harvest fields, the cutting of alfalfa is just beginning in the eastern part of the state and haying in the Willamette valley will be in full swing in about ten days from today with wages ranging from \$3.00 to \$5.00 per day. While the United States Employment Service is prepared to go the limit in an effort to supply farm help, it earnestly hopes that those who are looking for hay and harvest hands will send in their orders in plenty of time so that emergency calls at the last minute may be eliminated. Make up your orders now for the labor you need in the hay and harvest fields and send them in.

House That Beef

You have been reading the accounts of the universal shortage of Beef Cattle and Milk Cows, owing to the terrific demand made on the existing supply by the four years war and no doubt you have plans in mind to realize on this shortage by taking up the raising of cattle.

In this connection there is one point you should not overlook and that is the

Proper Housing of Your Cattle

Farmers who make money with Livestock first equip themselves with fences and buildings to properly control them.

Buildings are necessary for the proper housing of grain and fodder to carry the stock through the winter and to keep them growing through the winter. Livestock may be stunted during the winter by improper housing and feeding to such an extent that they will weigh less in the spring than they did the fall before. On the other hand with proper housing and proper feeding they can be made to gain in weight during the winter months just as rapidly as during the summer months when feeding on the best of pasture.

We are prepared to go into this matter with you in detail—Help with the planning of your buildings—furnish special plans, etc., and give you the sort of service we think a lumber dealer should supply his customers. It is not too early now to get your plans shaped for the fall activities.

Call or write and you will find us ready to help you.
