COUNTY COURT LETS BRIDGE CONTRACT

At a continued meeting of the county court held last Friday a contract was awarded the Pacific Foundation Co., of Portland, for the construction of a one-span steel girder bridge over Willow creek at Iona. The structure will be only 30 feet long and will be built 20 feet wide to permit the crossing of all kinds of farm and harvesting machinery without taking down. The contract price of the bridge, exclusive of the approaches, is \$2844. A. E. Eberhart was here Friday representing the contractor.

HORSE FALLS IN PIT—RIDER IS INJURED

Rufus W. Snyder, who resides between this city and Lexington, met with a peculiar accident one day last week in which he sustained a badly injured foot but considers himself lucky that he was not killed. While returning from town on horseback, riding quietly along the road his horse suddenly fell in a pit pinning Mr. Snyder underneath. In his struggles the horse rolled almost entirely over the prostrate man who was in such a position that he could do nothing to help himself but expected every moment that his life would be crushed out. Presently however the animal recovered from the attack and getting to his feet seemed to be all right.

Mr. Snyder has been on crutches since the accident with several small bones in his foot fractured and besides is losing much valuable time for himself and his teams in the harvest fields.

DISTRIBUTES TREASURY CERTIFICATES BY AIRPLANE

SAN FRANCISCO, July 27.—All the war financing organizations of the Twelfth Federal Reserve district have just been consolidated by Governor John U. Calkins of the San Francisco Federal Reserve bank into the War Loan Organization of the Twelfth Federal Reserve district with Robert E. Smith, president of the Title and Trust Company of Portland, as director and C. A. Farnsworth, Twelfth District Liberty Loan Publicity Manager as associate director.

The War Loan organization will direct the closing up of the business of the Liberty Loan organization and also look after the sales of certificates of indebtedness and War Savings certificates and stamps. Particular attention will be given to the sale of the new Treasury Savings Certificates just issued by the U. S. Treasury Department. They are in denominations of \$100 and \$1000 and the interest is compounded quarterly as with the War Savings stamps.

Director Smith made a spectacular distribution of the Treasury Savings District. On receipt of the first million dollars worth of the new securities in San Francisco by Governor Calkins he turned them over to Smith for dispatch to the directors in the several states and territories in the district.

Hurrying from the Federal Reserve Bank by auto and ferry to the aeroplane field back of Berkeley, Smith hopped into the passenger's seat of a big De Havilland bomber from Mather Field, Sacramento, with Lieutenant E. E. Neubig as pilot. A record-breaking flight was made to Portland. From there Smith raced down the Willamette and Columbia rivers to Kalama in the motor boat Vogler Boy and then proceeded to Seattle by auto in time to hand a bundle of the Treasury Savings Certificates to the captain of a fast mail steamer about to sail for Alaska. Director Smith believes in putting speed into distribution and sale of government securities in the Twelfth district.

CANT KEEP A GOOD TOWN DOWN

(Oregonian) Just watch Forest Grove rebuild of concrete and profit by her disaster. Fire cannot down a good Oregon town. Heppner shows that, and so will "the Grove."

SHERMAN REJECTS ROAD BOND BIDS

Although bids were submitted to the county court of Sherman county offering accrued interest and as high as \$4700 premium on their road bonds all bids were rejected. The court also decided to canvass the sentiment of the county as to the utility of selling a serial bond instead of a 20-year term bond the latter being required under the terms

of the bond election held last spring. Members of the court now figure that the county will lose approximately \$110,000 in interest if term bonds are sold there being no provision for a sinking fund with which to pay off the bonds at maturity under the terms of the election.

Bond buyers, it is said, agreed with the court that a serial bond is much to be preferred to a term bond in the saving of interest charges.

Delicate Mechanism Despite its scope Swift & Company is a business of infinite details, requiring infinite attention. Experienced men must know livestock buying with a knowledge of weight, price, the amount and quality of meat the live animals will yield. Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss. Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems. Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones. All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound with costs at minimum. How can the workings of this delicate human mechanism be improved upon? Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer? Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill. Swift & Company, U. S. A.
