## CHARLES NANNEMAN'S COMBINE BURNED

Tuesday evening between nine and ten o'clock, Charles Nanneman's combine was destroyed by fire. He supposed it was caused by a lighted cigar or cigarette stub. The next day he came to Ione and gave his order to B. A. Amy, agent for the Holt Manufacturing company, for a new combine. It will be here the first of the week. Mr. Nanneman's grain is going 18 bushels or more to the acre and is of first class quality.

## IONE NEWS WANTED

With this issue the Herald inaugurates a special Ione department, the intention being to give the people of that thriving town a better newspaper service than they have had in the recent past. To make the venture a success will require the hearty cooperation of the people of that district both in the way of business patronage and moral support.

Mrs. Della Corson is our accredited news correspondent at Ione and every reader of the Herald in that neighborhood is requested to assist her in making the Ione department the best page of the Herald by helping her to get the news. If you know a news item tell her about it, call her on the phone or write her a note. Mrs. Corson and the Herald will appreciate your assistance.

house to be erected on the Vanderbort & Winslow ranch north of Ione.

Jake Bortzer one of the big farmers of the Eightmile was in Ione Monday. He expects to start his combine Tuesday if his extras come. It seems as though so many of the farmers have been delayed on the account of not being able to get extras for their machines.

C. M. Schriver is progressing nicely with his harvesting. He has been running nearly three weeks with his combine and has not lost a day, having cut about 300 acres and has between 700 and 800 acres more to cut. The grain is going from 15 to 20 bushels per acre.

Walter Rietmann who lives out northeast of Ione, reports killing a coyote suffering from rabies. The coyote came up to the water trough and Walter picked up a stick and hit it several times over the head but that failed to kill it so he went to the house and got a gun and when he came back the coyote was in a mud-hole having fits. He shot and killed it.

**Chief Executives Censured.**  
 Congress has twice censured a president—Andrew Jackson, in June, 1834, for causing the removal of the government deposits of about ten million dollars from the United States bank (the preceding September); and John Tyler, in 1843. Tyler was elected as a Whig, but was really a Democrat; so he was therefore constantly antagonizing the policies of the party which had elected him.
