#### FINALLY REACHED HIS POINT

#### Lawyer's Flowery Eloquence Turned Out to Be Prelude to Very Simple Request

Norman Hapgood, the new minister to Denmark, was talking about a whitewashing" case.

"The case reminds me," he said, "of Pietro Libertini, a scion of sunny Italy, who was on trial for a murderous assault. His lawyer defended him in this manner :

"Your honor," the lawyor began, "my client, Signor Pletro Liberital, comes from Italia in Bella, land of romance, art and immortal literature. He comes, your honor, from the sunkissed home of the illustrious Michelangelo Buonarotti, of the divine Raffaello and the undying Dante Alighieri. He comes from the olive-crowned birthplace of Tasso, Arlosto and the humorous Boccaccio, His home is Italia, prolific mother of art and science, progenitrix of Galvani and Galileo Galilel."

"After the lawyer had gone on in this strain for about an hour the judge began to get impatient. "'What has all this got to do with

the case? he finally asked. "'My poor words,' said the inwyer, are by way of preface. My client, from immortal Italy, home of the painter and the sculptor, humbly prays this court to apply to him the very lowest form of pictorial art. He prays, your honor, to be white-washed."" livery at the market prices."

#### **BIRD APARTMENTS RENT FREE**

Orchardists Seek to Encourage the Woodpecker to Settle in Their Midst, as It Were.

It may sound like a joke to speak of the manufacture of woodpecker nests, but there is actually a factory in Maine that takes many orders for such nexts.

pine blocks 15 inches long and from five to six inches in diameter. The back of the block is squared to per-

mit of the patent adjustment being properly attached to the tree or placed desire of the packers to prevent shoewhere the house is to be located, a hoaroing by a panicky people. Notcanopy or top piece to keep out the weather being made like a roof. A perfect nest is drilled by a reamer. Within three inches of the bottom a who find it quite impossible to keep corkscrew Indentation is made to the bird entrance, as the toes of the woodthe children adequately shod. Doubtpecker are in pairs, two before and loss when they hear of shoe-hoarding two behind, with sharp, strong claws, as an explanation of the high price the whole structure of the foot making or leather, they think at once of If adaptable for climbing hardening of the arteries, schile de-

The houses are sold to orchard owners, as the claim is made by the elated evils. Such explanations are ornithologists that the woodpecker's feed consists chiefly of insects and valizing how the ancient law of suptheir larvae, which the birds get by digging into the bark and wood of 11y and demand is stretched here and trees. The woodpecker's tongue is an shrunk there to fit the complexities important instrument in obtaining of human existence, they ask themits feed, as it can be extended far beelves the sinister question, "When yond the bill, its tip being horny and furnished with a barbed filament.
