BE NATURAL-- Lay Something Away for the Future

It is natural to save—to provide for the future. The squirrel gathers nuts—the bee honey, to provide for the days when they cannot work. The day will come when you will not be able to work—start NOW to provide for this time. If you have no account, open one here now. If you have one, add to it regularly, and watch it grow.

OLD PIONEERS OF IONE CELEBRATE 73rd BIRTHDAYS

Mrs. Alice Keller of Ione gave a luncheon party for Mrs. Barbara Ann Ritchie and Mrs. Miller, mother of our local Tum-A-Lum man, W. H. Cronk, on Wednesday, August 6th, to commemorate Mrs. Ritchie's 73rd birthday. The strange feature of the occasion was found that the hostess was 73 years young on the same day. Mrs. Keller's brother, Paul Rietman and wife came in and spent the afternoon with them. We hope they may be spared to enjoy many more birthdays together.

She was attended by Dr. Walker and Dr. Chick of Heppner, who happened to be here at the time. At last report she was resting easily.

Mr. W. O. Hill, cashier of the Lexington State Bank is in Portland this week a victim of rheumatism. During his absence Miss Cecil Scott is looking after the bank.

Tom Barnett is building an addition on his home in Lexington and doing some other repairs. We wonder if all these improvements doesn't mean that Tom has some nice young lady in view that he may induce to become a life partner. Tom certainly is getting things in pretty good shape at his place.

The fire of last week which totally destroyed the large barn of Mrs. Sarah White could have been far more disastrous, and in fact might have taken the entire town. If the wind had been as strong as it was an hour later, the entire business part of the town along with some of the most beautiful residences would have been wiped out. Lexington's means to combat fire needs attention at once. What is the matter with our city council having a fire department formed and regular fire practice arranged. Right here, the writer, on behalf of the citizens of Lexington, wishes to extend the greatest thanks to citizens who responded so heartily at the fire bell summons. But as everything is so dry now it seems that the fire department question should be given immediate attention.

BOARDMAN GROWS MUCH HAY

There are 400 tons of hay raised on the desert in two years awaiting shipment from Boardman, which is

164 miles east of Portland. J. C. Bal-lenger of Boardman, who is at the Imperial says that the people are anxious to get a depot, an agent and a sidetrack so that the hay can be shipped out. Boardman is on a government project which has been unusually successful for in two years the settlers have, in many instances cleared themselves of debt. Nine tons of hay to the acre, with a ready market for the forage, is making the new community prosperous. The people of Boardman are enterprising for they have a \$12,000 school building, with five teachers and 100 pupils. Additions to the school are in contemplation.—Oregonian.

TWO COWHIDES, ONE PAIR OF SHOES, SAYS FARMER

Charles Borglet, of Havana, Ill., appearing before the Illinois Agricultural association, related an instance of how the high cost of living hit the farmer." He said:

"Recently I bought two pairs of shoes for my children. They cost me \$12.50. 'Leather is very expensive these days,' was the explanation at the store. Soon after one of my cows died and then I lost a calf. I got \$6.50 for the two hides. 'We can't pay as much as usual; leather is very cheap now,' was the explanation. As near as I can figure it each of my children is wearing the equivalent of a hide on each foot. There is a great big gap somewhere between the producer and the ultimate consumer."

HARVEST DANCE IS ENJOYABLE AFFAIR

The Harvest dance given in the pavilion Saturday evening was an enjoyable affair a big crowd being in attendance. Good music by the Dalles Jazz orchestra and excellent management made the occasion one to be remembered.
