They returned to Heppner several weeks ago and say Morrow county looks mighty good after a lengthy sojourn in Mormondom.

E. M. Matteson, Morrow county pioneer and long time resident of the Parkers Mill country, was a visitor in Heppner Monday for the first time in several months. Mr. Matteson says Heppner is so torn up with building etc., that he could hardly find his way around town. Mr. Matteson says he read with much interest in the Herald a few weeks ago because he was one of the party that built the Heppner fort and was with the volunteer forces recruited at Heppner and was with them throughout the trouble. He says Heppner was never in any particular danger of attack from the redskins as they never made a habit of attacking towns or large settlements.

WORK OF OREGON CHAMBER IS TO BUILD UP STATE

The following letter from F. S. Bramwell, vice president of the Oregon State Chamber of Commerce has been sent out to every commercial body in the state that is affiliated with the State Chamber.

Having recently visited Southern Central and Eastern Oregon, and having in a general way checked up the needs and requirements of those sections, it is deemed proper at this time to acquaint the members of the Oregon State Chamber of Commerce of the conditions that obtain.

While general peace and prosperity are enjoyed by the people in Oregon, there are a great many business items that need adjustment, and the State Chamber is working to this end.

An effort is being made to have constructed a railroad from Crane to Bend. This railroad is an absolute necessity, and the Oregon State Chamber is working with a hope of good results.

We find that all of this territory is in need of increased and better irrigation facilities. The impounding of the flood waters will more than double the irrigated acreage in Oregon and provide homes and support more than double the present population. A vast sum, perhaps twenty million dollars, is necessary to develop this feature and the State Chamber is applying to our government with a hope of getting the funds necessary.

We find scarcity of labor for agriculture everywhere. This fact is so prominent that it has prompted an idea with the State Chamber to advertise in the east and elsewhere to bring more people into this excellent state of ours. Let me say that there is no place on earth more blessed of God than Oregon.

The State Chamber has in hand the establishment of several mail routes to care for the people in Central Oregon. It is working with the several communities, looking to the building of better roads, and it is due to the efforts of the State Chamber that harmony exists in communities at the present time to a greater extent than ever before.

We are trying to find out the requirements and needs of all communities in Oregon, with a view of giving aid wherever we can. We want people to know that it is the divine mission of the Oregon State chamber to encourage and strengthen small communities whose interests are just as sacred to us as the more densely populated territory.

While the cities are generally congested the country everywhere is suffering because sufficient labor is not obtainable. We will fully explain this matter to the world, but especially will we invite people to till the soil.

We expect to continue our visits until every city and town in Oregon has attention. We will start our work in Western Oregon at once. We are here to serve the state everywhere alike. Write to us—explain to us how we can serve you. We have accomplished some great things and the Oregon State Chamber of Commerce is fast becoming the clearing house of business in Oregon. Please join us in this stupendous work.

Yours very truly, F. S. BRAMWELL, Vice President.

MY TRIP TO THE STATE FAIR

When I enrolled for the Industrial club work, I did not think I could win a prize, but I wanted to be a seamstress some day, so I thought I would enroll for the sewing. I had some difficulties at first and wanted to quit, but my mother wouldn't let me. I'm glad she wouldn't because I won first prize at the county fair and a trip to the girl's camp.

I left home Tuesday morning, Sept. 23, and went to Echo, where I met the prizewinners from Umatilla county. We left Echo at 11:05 a. m., chartered by Mrs. Waterburg. We arrived at Helen at 10 o'clock. We went to the girl's tent, and I was delighted to see Mrs. Shurtz as she had arranged for my stay there.

We got our meals in a big mess tent. The tables looked very attractive and the food was excellent. There was plenty of it.

On Friday afternoon I left for my home realizing better than ever before what a good education club work is for the boys and girls.

I want to thank every one who made it possible for me to go to the state fair, and all the speakers who helped us with their talks and Mrs. Shurtz, as well as those who were in charge of the camp.

I will never forget the good time I had and am so happy that I might be the one who will go from here next year.
