Speed of Birds.
The speed of birds is often over-rated. The swift, for instance, has been credited with a speed of 150 miles an hour, and the popular imagination compares the flight of a sparrowhawk with that of a cannon ball. The homing pigeon can be relied on under fairly easy conditions to make 60 miles an hour, or considerably more.

ASK ADAMLESS EDEN

Illinois Girls Want to Have Colony in Far West.

Suggest That Governor of Wyoming Procure for Them a "Bad Lands" Tract as Soon as Possible.

Bloomington, Ill.—A group of Kane county girls plan to found an "Adamless Eden" in Wyoming or some other far western state.

Miss Nellie Grant is sponsor for the movement and has written to Gov. R. D. Carey for his assistance in starting a woman's colony far from the haunts of man. In making her unique request, Miss Grant stated that the party will be made up of twenty, of whom ten are employed in a watch factory, seven are housekeepers, two are nurses and one is a school teacher.

All are dissatisfied with their lot and assert that the future holds forth nothing that is sufficiently encouraging to warrant their remaining at home. They believe that they can make a success of farming and would like to obtain a section of land, 640 acres, in some unsettled region, far from a railroad and little frequented by man.

Miss Grant suggested to the Wyoming executive a tract in southwestern Wyoming known as the "Bad Lands," and which is really a desert. No man will be allowed about the premises.

Governor Carey admitted that it was the most unusual request that he had ever received. He turned the letter over to the immigration commissioner with a suggestion that he do everything in his power to find such a tract for the party from Illinois.

The young women are ready to pay for the tract, but have limited funds, and can only finance a section that has not yet felt the advancing tide of civilization in the way of price. Some members of the proposed colony object to Wyoming and believe that Montana or Idaho offer greater possibilities.

The decision, however, has been left with Miss Grant and the choice will follow the investigation of various sites now being made. In anticipation of the establishment of the colony, the various members are studying diligently the subject of farming and stock raising.

They are ambitious in their plans and propose to utilize tractors and trucks instead of horses, and will introduce other up-to-date methods on the western frontier. They are also studying irrigation. All of the young women are becoming familiar with a revolver and rifle and will be prepared to defend their colony against any unwelcome intruders.

An effort is being made to close the deal by fall so that the trip to the West can be made by the first of next year. It may be necessary to erect some buildings. The young women say that they will be prepared to do everything necessary in the way of constructing a domestic.

No Problem at All.

A small boy was sent to the local drug store for an empty bottle, and after waiting his turn the assistant spotted him and said: "Well, little son, what can I do for you?" "Oh, I want an empty medicine bottle," the boy replied.

"I can't let you have one without something in it," said the assistant. To which the little hopeful shyly answered: "I suppose it is merely red tape, so shove us a cork in."

Worth Trying.

A few more smiles of silent sympathy, a few more tender words, a little more restraint on temper, may make all the difference in our lives.—Stopford Brooke.

Camel Cigarettes

What you pay out your good money for is cigarette satisfaction—and, my, how you do get it in every puff of Camels!

EXPERTLY blended choice Turkish and choice Domestic tobaccos in Camel cigarettes eliminate bite and free them from any unpleasant cigarette aftertaste or unpleasant cigarette odor.

Camels win instant and permanent success with smokers because the blend brings out to the limit the refreshing flavor and delightful mel-

low-mildness of the tobaccos yet retaining the desirable "body." Camels are simply a revelation! You may smoke them without tiring your taste!

For your own satisfaction you must compare Camels with any cigarette in the world at any price. Then, you'll best realize their superior quality and the rare enjoyment they provide.

LYNCHED AS CHURCH LOOTER

Mexicans Slay Man Accused of Stealing Jewels Off Image in Village Edifice.

Mexico City.—Details of the lynching of Juan Galvan, a prominent resident of the village of Zaragoza, in the state of San Luis Potosi, have been received in the capital.

El Democrita, in publishing the story, declares that this is the first instance of lynching recorded in Mexico. Galvan was publicly accused by the pastor of a church in Zaragoza of robbing the image of a virgin in one of the churches of gold and jewels valued at \$5,000. The curate inflamed his hearers, who dragged Galvan from his home, built a funeral pyre and tortured him until he died. The curate has been detained by the authorities.

Kitten Saves Master.

Holyoke, Col.—"White Paws," a kitten, saved the life of H. G. Mills. The kitten, which follows its owner as constantly as a dog, was riding with Mills in his automobile when engine trouble developed. Mills crawled under the car to investigate and found himself within striking distance of a great rattlesnake coiled. The kitten leaped from the car and sank its teeth into the rattler's head, killing it. The snake, which measured nine feet in length and had twelve rattlers, has been sent to an Eastern taxidermist for mounting. Pioneers declare it to be the largest rattler ever seen in this section.

No Cure For The "Flu"

Altho this dreaded Disease ravaged the Country last year yet a cure has really not been found for it, and Medical Authorities say another Epidemic will occur.

We urge everybody, the minute you feel a cold coming on, have fever or chills, dull aches or constipation, to take a THORO, CLEANSING, PURIFYING LAXATIVE.

Bathe your feet in hot salt water, take a good big cup of HOLLISTER'S ROCKY MOUNTAIN TEA (warm), and go to bed for the night—chances are you feel fine the next morning and it won't be so easy for the "Flu" or Grippe to get you.

Buy a package today, have it in the House and use it at the very first warning. Mothers should closely watch the children and treat them without delay. Patterson & Son.

"Don't Cheat Yourself" says the Good Judge

There's nothing saved by chewing ordinary tobacco. A little chew of that good rich-tasting tobacco goes a lot farther, and its good taste lasts all the way through.

Little chew—lasting—satisfying. That's why it's a real saving to buy this class of tobacco.
