Christmas Plums

Christmas—co-operation, cheer!

It is a catching affair—this spirit of Christmas—and the nearer it approaches the more contagious it becomes.

Every time that Christmas comes around again we wonder why we haven't cultivated the Christmas spirit all the year.

Here's hoping that all our soldier boys, on land and sea, will have a few Christmas plums on the day of good will—even though this year they may be mostly in the pudding.

Probably the girls are saying the same thing this year that they have said every year in the past—"Well, I'm going to start making presents right away for next Christmas."

We get most of the enjoyment of Christmas out of the dreams that come before and after. Oh, to dream of it before it comes, to enjoy it while it is here, and to appreciate it when it has gone!

At least we are reasonably sure of one thing—which is that no soldier will have to go without a good Christmas dinner. Well, this is as it should be, since—to paraphrase our old friend, Mr. Dryden—surely the brave deserve the fare.

FREE PLANS FOR DWELLINGS

United States Housing Corporation's Scheme to Assist Own-Your-Own-Home Committees.

The fact that plans for dwellings, prepared by the United States Housing Corporation during war time for various government projects, are to be made available for general public use by the own-your-own-home section, information and education service, United States department of labor, will serve to stimulate the interest of women in all parts of the country in this movement.

Several types of houses have been selected, and the plans for these will be given to own-your-own-home committees which are now carrying on campaigns in more than 40 cities. These plans are for dwellings that will best serve the needs of average families. Beauty and utility have been combined in the most practical manner and the plans are capable of many variations. It is explained that the purpose is not to interfere in any way with the work of local architects by thus providing government plans, free of cost, but it is expected that when the estimates in widely separated states are compiled the information will be of value to prospective home owners, while it will afford comparisons of the varying cost of construction in many parts of the United States. The employment of local architects is advocated.

Requests that local own-your-own-home campaigns be started without delay were sent out by the United States department of labor to 400 cities. Letters were addressed to mayors, labor organizations and the clergy, as well as to clubs and other associations that have expressed willingness to aid the campaigns. While there are now 40 cities conducting well-advanced own-your-own-home campaigns, nearly 200 others have started the work of stimulating building.

The poor will many a care forget,
The debtor think not of his debt,
But, as they both enjoy their cheer,
Wish it were Christmas all the year.
