BOARDMAN NEWS

The seventh and eighth grade pupils are working out a plan for the school garden and later will carry out the plan.

The constructors expect to have the building completed by Saturday night and we hope to get the school together all in one place in another week at least.

Enrollment cards have just gone forward to O. A. C. for the Industrial Club work. There will be a standard club in Poultry II, Sewing I, Sewing II, Pig I, besides individual work in sheep, corn, onions, Pig II.

Work on the athletic grounds is progressing slowly. The boys turned out several hours to assist in the work. A running track and base ball diamond will be first constructed. The boys of the high school are also working on the construction of a cement roller to pack the ground and roll in the pebbles that are somewhat prevalent.

The Boardman schools are developing a base ball team composed of pupils of the seventh and eighth grades and the high school boys. They will be ready for some games with nearby schools who have teams of equal caliber, after awhile. A regular athletic period for all pupils has now been established using the last period in the day. Training is beginning for the field meet to be held at Lexington in June. The declamation work will also be given attention, some work of that kind having already been begun.

Cramer & Co's general merchandise store was the scene of considerable excitement about 1 o'clock this morning when an alarm of fire was sounded and flames were discovered under the rear of the building in the vicinity of the oil tank. Mrs. Cramer was awakened by the smoke and flames pouring up into their sleeping apartment which is in the rear of the store. There being no fire protection of any kind in the community, the alarm was sounded by firing of several shots from a revolver and yelling "fire," "fire," in the good old-fashioned way. A crowd quickly gathered and a bucket brigade was formed and after some strenuous work the danger of a severe conflagration was averted. The loss was nominal and covered by insurance. The cause of the fire is unknown, but from its location it might be either spontaneous combustion or of incendiary origin.

FORD SERVICE

Let a Fordson Tractor Do Your Farming Work

Buy a FORD CAR Now

To make sure of getting a Ford car, buy one now. Don't wait until spring, but buy now while deliveries are possible. Even next month is an uncertainty. The number of Ford cars allotted to this territory is limited and specified. Even to get our allotment we must have real bona-fide orders for cars. Just so many cars allotted to us, just so many will get cars; will you be one of them? Those who order their cars now will be protecting themselves. If you would be fore-handed, get your name on an order today.

Don't think you cannot use it if you get it now. The four seasons are all alike to the Ford car. It is a necessity every month of the year. Besides, the Ford car is lowest in up-keep and easiest in operation. And the new Ford electric starting and lighting system makes driving more convenient. Your order for either open or enclosed cars will have our prompt attention.
