in formulating public opinion in every legitimate way, in favor of the bill. 3 WHEREAS, There are great benefits to our schools, parents and teachers, to be derived from active and well organized Parent-Teachers' Associations,

RESOLVED, That we heartily endorse the Parent-Teachers' associations and recommend an organization in each school district.

4 WHEREAS, There is lack of uniformity and effort throughout the county in the development of the requirements of the state course of study, and

WHEREAS, This condition is due largely to inexperienced and inefficient teachers, and

WHEREAS, A closer supervision would remedy this condition, and that this supervision may be obtained by a more complete system of outlines, and reports, therefore,

BE IT RESOLVED, That the County Superintendent prepare an outline conforming to the state course of study, of the amount of work that should be covered every four weeks, that these outlines be printed and paid for from the county funds, as other expenses of the county superintendent's office, that a copy of these outlines be sent to each teacher in the county, and that these outlines be made a basis for grade promotion for grades 1 to 7 inclusive.

5 WHEREAS, We are living in a period of exceptional extravagance, and there never has been such a waste of time, labor, money, and materials, and

WHEREAS, Our nation is facing a period of suffering due to high prices of all necessities of life and this suffering will fall more heavily upon the children of our county, and

WHEREAS, Children growing up under the above conditions are certain to develop false ideals and form extravagant habits, which in company with the detrimental effects of the attendant high cost of living, thus jeopardizes the future citizens of America therefore,

BE IT RESOLVED, That the teaching of thrift be a regular part of the school program, that pupils should be encouraged by some definite plan to purchase thrift and war saving stamps, that extravagance in all lines should be checked, and that thrift education be regarded a continuous process involving habit formation and that the work should be directed during vacations as well as during the school year.

BE IT RESOLVED, That in order to induce young men and women to enter the teaching profession and thereby furnish the country an adequate supply of competent, well trained teachers, it is advocated at this convention that there must be higher salaries for trained teachers, higher professional standards, excluding the incompetent and unprepared, and more liberal appropriations to our higher institutions of learning.

That the date of the election of teachers by school boards of Morrow county, be March 15; that the minimum salary for trained teachers (by trained we mean Normal graduates or teachers who have had two years successful teaching experience) be \$1200 on a twelve months basis; that a reasonable increase be granted each succeeding year according to efficiency and professional advancement; that the teacher be required to attend a standard Normal school or college for a period of six weeks during the first year; to do the same the second year or teach a summer school in the district for a similar period; and that the teacher be permitted to spend the usual vacation the third year according to her or his wishes.

ANNOUNCEMENT Morrow Heights Addition

I have long since believed that one of the first and most necessary requisites for the upbuilding of a community is good wholesome water. Now that Heppner proposes to supply this factor, and having often been requested to sell building sites out of my East Side property, I have concluded to put it on the market for sale in lots and blocks, and the plat is now nearing completion under the supervision of Mr. S. C. Martin, a civil engineer of wide experience.

The tract is easily accessible, has a fine view and its subdivision makes it desirable as home sites. One of these days you will want a home in Heppner. Why not buy a lot now when it can be had at a reasonable price, on very easy terms and in what is surely destined to be a most beautiful residential district.

If you have never walked up on the hill, do so now. You will be surprised at the beauty of the location with a view scarcely anticipated, Mt. Hood being clearly outlined in the distance. Candidly, I am surprised and much gratified at the easy grades possible to reach the property as worked out by Mr. Martin, who is on the ground, and who will be pleased to give any information concerning the plat.

Perhaps it is not entirely out of place to say that in platting this property I am as much interested in making it a beautiful home site as I am in the profit that may be realized, but I do not want any one to buy unless they feel it will be profitable to do so. Nevertheless, I have no hesitancy in saying that in my opinion, before you have made your last payment, under the liberal terms I propose to offer, the lots will have greatly enhanced in value.

WATCH THIS SPACE FOR SUBSEQUENT INFORMATION.
