The Moral Risk

When the time comes to seek credit, a bank will want
to know what you ARE as well as what you HAVE.
That's where the moral hazard comes in.

And you can't establish credit over night. Rather, it
is a matter of becoming KNOWN at your bank, or es-
tablishing confidence by the way in which you have
kept your account, regardless of the amount you
have to your credit.

Get acquainted—that's the first thing. Then develop
that acquaintance into friendship. It will stand you
in splendid stead when the time comes. Remember-
ing also, that this bank offers you a complete bank-
ing service.

**WHY YOU SHOULD VOTE FOR
MILLAGE TAX**

In 18 months, 154 members of the
Oregon Agricultural College faculty
have resigned. This is an average of
one to each three and one-half days.
Resignations at the State University
have also been numerous. Many of
these men were technical specialists
in branches of agriculture, whom the
state can ill afford to lose, as new
men cannot learn the state in a year
or two.

Former students of the agricul-
tural college, the State University and
the Normal School in this vicinity,
have just received a booklet explain-
ing the crisis at the three institutions.
The booklet shows that the number
of students at the Agricultural Col-
lege has increased 148 per cent, and
at the University 152 per cent, in
seven years; but that the income
from the state has increased less than
four per cent. In addition the buy-
ing power of the income has declined
steadily since 1912. As a result, the
three institutions are trying to train
two and one-half times as many stu-
dents on the equivalent of less than
one-half the income, and cannot
"make ends meet." These are some
of the reasons for the higher educa-
tional relief bill that is to come be-

fore the people on May 21.

Multnomah County Pomona Grange
at a recent all-day session, not only
endorsed the relief bill for higher
education in Oregon, but requested
its nine subordinate granges to go
out in their communities and work
for the bill. The Oregon Dairy Coun-
cil has also strongly endorsed the bill
which is to be voted upon May 21,
and which provides 1.26 mills to pro-
tect the work of the Agricultural Col-
lege, the State University and the
Normal School.

The State University, the Agricul-
tural College and the Oregon Normal
School now have 5499 fulltime stud-
ents. The number does not include
any of the thousands of short course,
correspondent-study, or summer
school students. The income from the
state for these three institutions has
increased only three and eight-tenths
per cent in seven years, although
their attendance has increased 150
per cent.

The Agricultural College and the
State University will have to close
their doors to at least 1000 students
and perhaps to twice that number un-
less relief is voted in the May elec-
tion. Both institutions are in great
need of classrooms and laboratories.
