Win Fight on Yellow Fever.

In 1916 the Rockefeller foundation sent a sanitary commission to Ecuador for the purpose of arranging with the Ecuadorian government to take the responsibility of eradicating yellow fever from Guayaquil. The proposal was accepted June 10, 1918, when a celebrated bacteriologist arrived and began his work. He succeeded in discovering the germ which causes yellow fever, his investigations promising to produce not only a preventive, but also a cure for this malady.

Mrs. Eliza J. Pettyjohn and her daughter, Mrs. Sam McCullough, were business visitors in Heppner on Saturday.

Now that the new sidewalk is completed on the south side of May street why not move the mixer across the street and go after the old Palace hotel property. A sidewalk is of more importance around that corner than on the south side of May street to accommodate people going to the court house.

A telegram was received here last evening from Hot Lake sanatorium announcing that F. A. Case, who underwent an operation there a few days ago, was in a very critical condition, his life being despaired of.

Mrs. Case and daughter, Veima, and M. L. Case left for Hot Lake this morning. Don Case has been with his father for several days going there when the operation was decided upon.

PRIZE CAST-OFF CLOTHING

Peculiar Whim of "Fashion" in Virgin Islands Puzzling to United States Marines.

United States marines garrisoning these new possessions of Uncle Sam can't understand the fashions affected by the natives, writes a St. Thomas (Virgin Islands) correspondent. Just why a negro or Cha-Cha Indian should wear an overcoat when the thermometer stands 100 in the shade still mystifies the "sea soldiers."

Many of the marines down here have seen service in the neighboring island of Haiti, where clothes are the least consideration of the natives. But as soon as the new arrival reaches these shores he is approached by natives begging for his cast-off clothing.

For some strange reason the native Virgin Islander believes in wearing every article of clothing he can lay hands on. All American holidays are now celebrated by the natives, who spend the day parading about the streets, some of them wearing overcoats, capes, two or more pairs of trousers and a red bandana handkerchief about the neck. Also they frequently adorn themselves with the horns of cows or oxen attached to the head just in front of the ears.

Immortal "Mermaid"

She was a "famous woman," because she was a "famous" inn that served "famous" men. That was enough for the Mermaid. She was named after an enchanting lady of the misty deep, who is a woman to her girth and a fish to her feet. Her figure was on the signboard of the famous inn, in Friday street, London. Pass with lusty glances the bar in front—the parlor behind of the blackened roof and polished tables—tap-room on the left—luxurious, wind-up passages—and you have come to the inn parlor. This is the Mermaid! And the men sitting there? Ben Jonson, Fletcher, Beaumont, Carew, Deane and Shakespeare. Shake speare is roaring over his dog's nose, and Ben Jonson over his canary, Oh, listen to the wit-quotations between Shakespeare and Ben Jonson! Mermaid, our "famous woman," why were you not a twin?

Varying Colors of Diamonds.

Each of the five mines owned and worked by the great De Beers company in the Kimberley district produces diamonds with well-marked characteristics. The rich Kimberley mine yields a good percentage of white and many yellow stones. Dutoitspan mine is famed for its large yellow diamonds. At Bullfontein small white and spotted stones are common. From the Westerton mine come many beautiful deep orange colored diamonds, while the De Beers mine shows a good percentage of tinted yellow and brown stones. The Premier mine (Transvaal) yields a large number of "colored" stones. The Cullinan diamond was of exceptional purity. From the Jagersfontein mine in the Orange Free State the famous bluish white stones are derived. The diamonds found in German Southwest Africa are small and yellowish in color.

HIGH SCHOOL NOTES

The Student Body play was quite a success. The total gate receipts were \$142.30. The full expenses have not been figured up as yet, but we hope to clear about \$96.

The seniors will present their play the tenth of April. A matinee will be given the afternoon of the tenth. This is a lively, up-to-date play. One that you will all want to see. It is called, "Mrs. Briggs of the Poultry Yard." You have read "Mrs. Wiggs of the Cabbage Patch," this play is a great deal like that. So plan on seeing the play and having a hearty laugh.

The junior play, "Arrival of Kitty" will probably be presented on April 16. This is said to be a very high-class play.

The girls are preparing a program to be given the 23rd of April. The proceeds of this program are for the gymnasium apparatus. Watch for further notice of this program in these columns.

The girls and boys of the athletic association are busy practicing for the coming track meet. The meet will be the 1st of May at Lexington.

Preparations are being made for the declamatory contest.

The monthly report from Mr. Bolt-not, twenty days form a regular school month:

Number of days attendance 5788 1/2
Number days absence 258 1/2
Per cent of attendance 95
Number visits of parents 18
No. of pupils enrolled 375

Judging by the looks of the seniors the play is certainly going to be a success.

Raymond Ferguson and Alvin Boyd are making up the deficiency of boys in the senior play.

Members of the senior class have received their invitations to the junior-senior banquet for April 2.

class, will not be able to attend school for the rest of this year.

The juniors held a class meeting Friday at 12:45 to decide upon many important events which are to take place in the near future.

Don Case, a member of the junior class, will not be able to attend school for the rest of this year. Dan was a very active member of the class and is still helping us with our play, "The Arrival of Kitty," which will be given at a later date.
