MORROW HEIGHTS LOTS AT REASONABLE PRICES

Attention is directed to the advertisement of Morrow Heights Addition which appears in this issue of the Herald in which the owner announces the prices which have been fixed on that slightly property. These prices are bound to appeal to every thrifty home-site seeker, ranging as they do from only \$200 to \$400.

Morrow Heights has a commanding location, a splendid view of the city, the adjacent valley, the surrounding country and the distant mountains and the very reasonable prices at which the lots will be offered, as well as the advantageous terms of payment places them within the reach of every citizen who cherishes the laudable ambition to own his own home.

Mr. Morrow, who spent the better part of his life in Heppner and who helped make the good old town what it is today as a commercial center, confesses to a certain degree of sentiment in the opening of this addition.

"It is not a matter of a few thousand dollars, more or less, that I may receive from the sale of these lots," he remarked a short time ago to the writer, "but rather it is a matter of helping to build up and develop the home of my earlier years which is, as it has always been, the best little city on earth."

A plot of this splendid property may be seen at the Herald office from which prospective purchasers may make tentative selections in advance of the day of opening the sale.

LEGION POSTS ARE LINING UP

American Legion posts down the state are lining up for the Salvation Army Home Service program for 1920 and in several posts holding recent meetings the boys who saw the blue bonnet on the firing line in France have declared for active participation in the financial campaign May 1 to May 10.

Alfred E. Babcock Post at Albany has notified Linn county campaign chief, J. M. Hawkins, that the post members would organize as shock troops on Monday, May 3, and divide up the city into districts. "These squads will keep on the advance until the Linn county objective of \$6,500 is taken," is the word of a legion man who adds: "If the people come to realize what meritorious work the Salvation Army did during the war they will subscribe to the drive liberally. It is to educate all that the house campaign is planned. The wonderful work of the Salvation Army cannot be retarded for lack of funds."

Baker post No. 41 has offered a half day's time of every member to help raise that city's quota.

Commander C. G. Snyder of the Gresham post has placed his Legion forces at the disposal of Judge Geo. W. Stapleton, member of the Multnomah County board in charge of the Gresham district. The legionaries guarantee the Gresham quota.

Letters coming into headquarters show that other posts are thus early offering their services to help the ladies do in the remote districts of Oregon, the great work they have been doing for years in the stumps of the larger cities.

Milton Klepper, in charge of the speakers bureau for Multnomah county as well as for the state, declares that all of the returned veterans who have silver tongues are anxious to take the stump for the Army during the campaign. He is getting a list of speakers, he says, that will run the bond drive lists, with all their stars, a close race for oratory par excellence.

SEASON'S SUGGESTIONS AS SEEN BY STATE COLLEGE

Quality in dairy products will govern price this year more than ever before. Keep milk and cream clean and cold and protect from contamination of any kind.

Food will be scanty in August and September so provisions should be made now for feed to carry the cows over this period. Plant or sow some crop that will be ready to cut green at that time.

How about planting clover or alfalfa this month? Begin to cultivate the soil frequently—at weekly or 10 day intervals. This is the only way to kill off those weeds and to keep the soil in good condition. Don't make the mistake of disking just preceding sowing time as it will give the weeds a chance to grow and get more moisture and will bring a new crop of weeds to the surface.

The shortage of farm hands will prevail again this year. Now is the time to start that labor exchange circle. Good farm hands require good farm wages.

The farmers of Oregon can save \$1,000,000,000 a year by feeding more green stuff to poultry. It is recommended that kale, alfalfa, lawn clippings, coveys, cabbage, sugar beets or mangels, oats or vetch be used.

A VETERAN STOCKMAN

J. H. Humphries, pioneer horseman of this county, now farming a 1400-acre ranch in the Eightmile country, was a pleasant caller at the Herald office Wednesday while in town on business.

Mr. Humphries is a native son of Marion county and came to the Heppner country in 1872. He was only a boy at that time but he remembers the general election which was held that fall in a log cabin on the bank of Willow creek near the corner of what is now May and Chase streets. The republican nominee for president that fall was General Ulysses S. Grant.

Mr. Humphries engaged in the horse business for many years and still has a small band of fine horses on his ranch. He always bred large animals and has recently been offered as much as \$225 for some of his stock.

Mr. Humphries says the wheat in his section shows a good stand and with proper weather conditions from now on should make a good crop. There is yet considerable seeding to be done, the wet weather having retarded farming operations rather seriously.

NOTICE OF BOND SALE

Sealed bids will be received until the hour of 10 o'clock A. M. the 15th day of May, 1920, and immediately thereafter publicly opened by the County Court of Morrow County, Oregon, at the office of said Court in the County Court House in the City of Heppner, Oregon, for the purchase of bonds of said County, issued for the building of permanent roads therein in the sum of \$20,000, same being in denominations of \$1000 each, numbered 181 to 200 inclusive, said bonds to bear date November 1, 1919, and to mature absolutely without option of prior redemption November 1, 1929, said bonds to bear interest at not to exceed 5 1/2 per cent per annum, payable semi-annually on May and November first, principal and interest payable in United States gold coin at the office of the County Treasurer or at the Fiscal Agency of the State of Oregon in New York City.

Said bids must be accompanied by a certified check for 5 per cent of the face value of the bonds bid for and must be unconditional.

The approving legal opinion of Messrs. Teal, Minor & Winfree of Portland, Oregon, will be furnished the successful bidder.

The Court reserves the right to reject any or all bids. The assessed valuation of the taxable property of the County is \$14,046,720.54.

Henry Gay and son, Walter, were in from Rhea creek Wednesday doing some trading. Mr. Gay says he is pretty well fed up on this weather but he hesitates about having it changed for fear what he would order might not suit all of his neighbors and that would make trouble in the neighborhood.

M. O. Bennett, chief engineer for the state highway commission for Eastern Oregon, with headquarters at Pendleton, was in the city Thursday on highway business.

Frank Gilliam, who has kept the government weather records here for many years, reports that up to the 29th this is the wettest month in the history of Heppner. When the month was but two-thirds gone 3 1/2 inches of moisture had fallen.

The Moral Risk

When the time comes to seek credit, a bank will want to know what you ARE as well as what you HAVE. That's where the moral hazard comes in.

And you can't establish credit over night. Rather, it is a matter of becoming KNOWN at your bank, of establishing confidence by the way in which you have kept your account, regardless of the amount you have to your credit.

Get acquainted—that's the first thing. Then develop that acquaintance into friendship. It will stand you in splendid stead when the time comes. Remembering also, that this bank offers you a complete banking service.
