Our work is guaranteed to give you perfect satisfaction and if you are not pleased in every particular we will spare neither time nor money to make it right.

Peoples Hardware Company

The Moral Risk

When the time comes to seek credit, a bank will want to know what you ARE as well as what you HAVE.

And you can't establish credit over night. Rather, it is a matter of becoming KNOWN at your bank, of establishing confidence by the way in which you have kept your account, regardless of the amount you have in your credit.

Get acquainted—that's the first thing. Then develop that acquaintance into friendship. It will stand you in splendid stead when the time comes. Remembering also, that this bank offers you a complete banking service.

Farmers & Stockgrowers National Bank HEPPNER, OREGON.

DEMOCRATIC CONTROL FOR STATE CHAMBER

Subscribers to Budget Will Have Voice In Matter of Expenditures.

"After I have subscribed to the Oregon State Chamber of Commerce, what part will I have in the organization?" This question is frequently heard in connection with the State Chamber expansion movement now in progress.

The answer is that all subscribers will have a voice in saying how the money will be spent. By this and other methods the fundamental democracy of the organization is assured. Of course the Board of Directors, to which every member is eligible, will actually expend the funds of the organization; but they will be guided in their expenditures by the wishes of the subscribers.

To determine what the subscribers want the State Chamber to do, group meetings will be held in every center of population in the state, when all subscribers will be called together and asked to answer, in writing, the following questions:

- 1. What can the Oregon State Chamber of Commerce do to improve conditions of opportunities in your own line of business or profession?
2. What do you believe the Oregon State Chamber of Commerce should do to advance the interests of your own community?
3. What in your opinion as a citizen, is the thing of first importance for the Oregon State Chamber of Commerce to do for the good of the state as a whole?

After these group meetings have been held under the direction of the executive committee in charge of the campaign, each district will select one representative to attend a convention with the officers and directors of the State Chamber, and the answers to the questions will be formulated into a program of activities designed to unite the entire state on definite tasks.

The program of work will also control expenditures. When work is started on this program the directors will follow their present practice of submitting questions of wide importance by means of referendum.

The Directors represent every city and county in the state. Representation on the Board is arranged geographically and not based on population. Eastern Oregon is represented by five Directors, Western Oregon by five, Multnomah County by two, and there are three at large; making a total of fifteen, which avoids the possibility of control by any one section.

To sum up: The State Chamber will do what the subscribers themselves say should be done. It will function through a Board of Directors elected by delegates and officers, including an executive secretary elected by the Board. Voting will be done by constituent members. Individual subscribers help make up the program of activities and carry them to completion through committee service.

WORLD'S POOREST CITY IS MADE RICHEST BY TOURIST TRAVEL

From the poorest republic in the world to the richest is what tourist travel did for Switzerland. That little republic practically unknown a century ago is now recognized the world over as a playground for tourists because of scenic beauties were capitalized.

Data showing what the tourist business has done for Switzerland has been prepared by Alfred A. Aya representing the Swift interests in Oregon and turned over to the Oregon State Chamber of Commerce to be used in connection with its state-wide expansion campaign now in progress.

It has a direct bearing on the campaign by reason of the fact that one of the chief arguments being used by the State Chamber is that cities are spending huge sums to advertise their interests along civic industrial lines.

In the article prepared by Mr. Aya showing the economic value of tourist travel he says:

"It is estimated that tourists annually spend more than \$750,000,000 in the United States. Of this sum it is estimated Maine and Colorado receive close to \$50,000,000; the New England states close to \$100,000,000; Florida close to \$200,000,000 and southern California close to \$300,000,000—while in 1918 it was estimated that Oregon with scenery second to none in the world received less than \$5,000,000 from this source.

"The best example in the world of the possibilities of the tourist business is Switzerland, with an area of 15,965 square miles or about one-third larger than Harney county in eastern Oregon.

"The Swiss did not consciously begin development of the tourist business until about 100 years ago, starting with the single guest in the spare room until today the little republic has, according to the latest hotel guide, 259 hotels and doubles its population annually through the tourists. It is said the little village of St. Moritz has five over fifty native population, but 2700 beds for tourists."

"Specific cities cited by the State to advertise their possibilities include Chamber that are spending huge sums San Francisco which is now raising a fund of \$250,000; Seattle now engaged in raising \$250,000 and New Orleans which put \$100,000 into an advertising campaign.

NOTICE FOR PUBLICATION
