

DEVELOP RESOURCES, STATE CHAMBER'S AIM

Expansion Movement Now in Progress Will Allow Broader Activities.

What does Oregon need? What—if it were possible to name the chief factor—does it most need in order to develop with a maximum of success?

The question is impossible to answer. There is no "chief factor." The solution lies not in one particular need, but many.

Oregon today, facing an era of development unparalleled in its history, must fill these needs if it expects to go ahead.

Of the many factors that must be employed if the state is to progress immigration and colonization stand pre-eminent in order to solve the vital problem of land settlement.

Irrigation, reclamation of land and drainage must be developed as another method of bringing about the solution of this problem. Farm labor must be brought in. Homeseekers who in turn become food producers, must be encouraged and made to see the possibilities that await them in the great northwest.

Good roads must be built. As the vast tracts of wilderness with their billions of feet of timber are converted into lumber, highways must be provided over which commerce can be carried and the scenic beauties of the State viewed by the tourist.

Among other needs are industrial expansion, railroad extension and water power development.

Advertising and publicity must be carried on if Oregon is to be made known as a country for the homeseeker or where opportunity beckons. Its scenic beauties must be advertised to attract the streams of golden dollars from tourists and pleasure seekers. Other states, some of them with many advantages to attract the tourist, are spending millions of dollars each year from advertising—the more they realize the value of advertising and making public what advantages they possess.

Oregon must develop its water transportation, its inland lakes, its ports and reach out for foreign trade and it must develop the state to produce the exports which are to go down to the sea in ships. It must expand its educational facilities as an additional advantage to hold out to the homeseeker with children to educate.

The Oregon State Chamber of Commerce is the most logical agency to carry on this development work simply because a state organization of this nature can work for the mutual good of all communities in the state without favoring any particular one.

OREGON PLAYGROUND FOR TOURISTS AIM OF STATE CHAMBER

Switzerland used to be the poorest country, per capita, in the world. Now it is the richest. Tourist travel did it. Main and Colorado each receive \$50,000,000 per year from their tourists; Florida gets \$250,000,000; California, half a billion a year. Oregon gets \$5,000,000.

A three year's advertising campaign by the Oregon State Chamber of Commerce may be expected to bring in at least one-half of what Main and Colorado get, or \$25,000,000, which should increase on a rising scale.

STATE CHAMBER SEEKS TO DOUBLE POPULATION ON FARMS IN 3 YEARS

Oregon has water resources to irrigate 4,000,000 acres of land now unproductive, and which would support in comfort, 200,000 new population, or about 40,000 new families.

If in its three year's campaign to put families on Oregon's vacant land, the Oregon State Chamber of Commerce can bring 1,000 families to utilize this land and water, it will mean in expenditures alone for such commodities as clothing, food, furniture, etc., of \$1,000,000, calculating the expenditures for an entire family at only \$1000 per year, to say nothing of the wealth produced by these new settlers.

Land settlement is one of the chief aims of the Oregon State Chamber of Commerce. Its present program in its effort to aid in the development of the State.

Oregon has 18,000,000 acres of tillable land now uncultivated. Oregon produced 20,400,000 bushels of wheat in 1919.

If Oregon's 18,000,000 acres of tillable but uncultivated land were planted in wheat and the yield were the Oregon average for ten years—21.9 bushels per acre—new production would be 395,400,000 bushels which, at the price today of \$1 per bushel, would mean a cash value of \$395,400,000.

The Oregon State Chamber of Commerce expects to double the number of farmers in three years. If this means double the wheat crop, it will mean an additional yield of 39,540,000 bushels of wheat, which at the prevailing price would mean a cash value in new money of \$61,200,000.

NOTICE TO WATER USERS.

Notice is hereby given that owing to the limited supply of city water during the dry season, the Council at the regular meeting held June 7th has adopted the following regulations relating to the use of city water for irrigation purposes. Beginning on Monday, June 14th the city will be divided into two districts, being North and South of May street. The district North of May street beginning on Monday, June 14th is permitted to use the city water on said Monday and every other day thereafter, and the district South of May street on the alternate days. The hours at which the water may be used will be regulated by the Power House whistle and all persons are requested not to use the water for irrigation purposes at any other time and then they must have a nozzle or sprinkler attached to their hose.

These regulations have been adopted for the benefit of all citizens, and any person found using the city water for irrigation purposes at any other time or manner than above provided, the water will be immediately cut off from their premises.

THOMAS HUGHES, Recorder.
Dated this 8th day of June, 1920. 6-8

NOTICE

Notice is hereby given that I, the undersigned under the laws of the State of Oregon, have taken up the animals hereinafter described while running at large on my premises near Castle Rock, Oregon, to-wit:

1 Brown stallion, 3 years old, about 900 pounds, no brand.

1 gray mare, 6 years old, about 1000 pounds, spider brand on right shoulder.

4 bobtail yearlings, spider brand on right shoulder.

1 bobtail black stallion, 5 years old about 650 pounds, spider brand on right shoulder.

1 gray mare, 8 years old, about 1000 pounds, with sucking colt; spider brand on right shoulder.

1 gray mare with sucking colt, branded bar over triangle on right shoulder; 9 years old, about 800 lbs.

1 black stallion, 3 years old, about 900 pounds, spider brand on right shoulder.

1 black mare, 3 years old, about 900 pounds, spider brand on right shoulder.

That I will, on THURSDAY, THE 8 DAY OF JULY 1920, at the hour of eleven o'clock in the forenoon, of said day, unless the same shall have been redeemed, at what is known as Marshall's cor-

Headquarters for McCormick and Deering Binders Mowers, Headers and Rakes
