

EXPLAINS ORIGIN OF "JAZZ"

At Last the Secret (?) is Given to the World, and by an Englishman, Too.

Writing about the jazz reminds me that the subject is of such importance that a long cablegram was recently sent from London concerning the origin of the word.

He tells us that, while Englishmen should not be held responsible for the verminous of their brethren in the Western continent, the word jazz, he admits, is now as much a household word in England as in America.

is through harsh and abusive tongue, he was often requested to "jazz up" the work. The Southern driver makes "jazz" sound like "jazz." And these we have the word itself.

Before the consolidation I held an agency for one of the old express companies. One day several patrons were in the office when the superintendent and two other officials of the company came in unexpectedly.

No Cork Wasted Now.

The best cork has hitherto come from Spain, but the richest forests of fair grade cork are now in Sardinia.

PLAN SCHOOL ON SHIPBOARD

Socialistic Council of Bradford, England, is Considering the Adoption of Remarkable Scheme.

When it became necessary to erect a new secondary school in Bradford, the rich wool textile center of England, the usual estimates were asked for, and reported, in the total sum of \$200,000.

Socialists, who have a considerable majority on the Bradford education committee, at once decided to break free from tradition, and adopted the idea of buying a suitable sailing ship for that amount, one big enough for a couple of hundred children.

It is still to be settled whether the ship schoolhouse will remain moored in Bradford canal docks, only going to sea as a freighter during vacation periods, or whether it would not be in the interests of a general education to let the scholars see glimpses of foreign ports, learning their languages among natives, the ship at the same time being loaded with cargoes that would pay full maintenance expenses, probably even of the boarding of the children.

Auto Worked Change.

He used to be a pretty easy-going fellow before he bought his machine. Some days his name would decorate the spare board at the barn and some days it wouldn't, for he and work were not firm friends.

But now how different. He contracted the automobile fever. The machine was the result. Now, buying an auto is easy. But keeping it running and taking your girl out is another thing. That requires coin of the realm.

He has developed into a terrible shark. His face is now a familiar figure on the North Easton line and if there are any spare trips laying around loose he is right up to the window leaning on both elbows.

We should have made an exception as to Sunday. Ah, that is the day he shines. The little machine rolls merrily along.

"It's worth it at that, to be a millionaire one day a week," he remarked as he unlimbered his portly form after 11 hours' labor the other night on a North Easton hack.—Brooklyn Enterprise.

Nut Butter is Wholesome.

Cocoa butter, as nut butter is called in England, was not accepted with enthusiasm by the British public when natural butter became scarce during the war, so the food committee of the Royal Society made some elaborate tests of its effects on human beings.

Bugs That Birds Eat.

According to a paper on behalf of bird protection published by the State Horticultural Society of Kansas the bird population of that state is 250,000,000, which every year eat enough insects to fill 250 trains of 50 box cars each—25,000 cars of a minimum weight of 21,000 pounds to the car.

Things We Forget.

Folks here seem to have developed an unwelcome habit of leaving their legs behind in street cars. According to the last annual report of lost property, the general manager of the street railways says three artificial limbs found their way into the lot, which also includes six gas masks, sixty Bibles and prayer books and cash to the value of \$11,405.—Liverpool (Eng.) Times.

Buyers of Printing

Just a few words to the Business Man who desires to have his Printing produced accurately and promptly

WOULDN'T it be a great relief if you could say to your printer, "I need a catalogue, a circular, some letterheads and envelopes,"

and then be able to entirely dismiss the matter from your mind in the confidence that he will do the work to your entire satisfaction. The printer comes to you with a proposition that pleases; that has a strong advertising value in the suggested copy, in the proposed typography, in the color arrangement, and in the general layout.

The printer who can do that for you must offer efficient service. That is what we are giving to our numerous customers, and we are ready to do the same for you.
