A SQUARE DEAL IN REAL ESTATE.

What has brought the real estate business largely into disrepute is that all the failures who have tried nearly everything else and most of the professional liars ultimately drift into the real estate game. They would skin their own mothers-in-law to get a commission. Of course they don't last long, but others come to take their places, and the public has become leary of buying or selling land through real estate agents.

There are some Straight Shooters in the Real Estate business

the same as in the mercantile business, the banking business or in any other legitimate line of endeavor in which men have reputations to uphold and defend. Ask my clients on both sides of the numerous real estate deals I have made, and in every instance they are satisfied customers. It is the only way. When you have any land to sell or buy, come in and see me.

The Moral Risk

When the time comes to seek credit, a bank will want to know what you ARE as well as what you HAVE. That's where the moral hazard comes in.

And you can't establish credit over night. Rather, it is a matter of becoming KNOWN at your bank, of establishing confidence by the way in which you have kept your account, regardless of the amount you have to your credit.

Get acquainted—that's the first thing. Then develop that acquaintance into friendship. It will stand you in splendid stead when the time comes. Remembering also, that this bank offers you a complete banking service.
