BOARDMAN

Over forty people at the Farm Bureau meeting Saturday night signed a petition asking County Agent Hunt to get an O. A. C. extension school for some time in January. Other items of interest were the report of A. L. Larsen, president of the Columbia Basin Alfalfa Growers Ass'n., one on drainage by A. W. Cobb, and the completion of the organization of the North Morrow County Fair Association of Boardman. Mr. Larsen stated that the next meeting would be at Hermiston on November 4th, so it was decided to hold a special meeting of Boardman alfalfa growers at 2:00 P. M. election day, Nov. 2nd. It is hoped by that time that all districts will be represented. Echo and Stanfield districts so far are not in. This may be due to the fact that they feed most of their hay and have not much baled hay to sell.

Mr. Cobb reported that work in drainage would start as soon as men and teams could be found to do the work. Community singing, music, literary selections and refreshments concluded the evening.

Fire prevention has had a prominent place on the school program all this week, culminating in a general assembly exercise on Friday when representatives from each grade delivered an essay on some phase of fire prevention. The speakers were chosen by an informal essay contest as a part of the language work. Those taking part were Paul Hatch, Gladys Paibe, Robt. Partlow, Jas. Howell, Erna Broyles, Max Partlow, Alviest Metford, Sadie Larsen, Mahava Kutzner, Nellie Partlow, Albert Gilbreth, Helen Harper. The subjects discussed were defective wiring, carelessness, playing with matches, lighting fires with oil, leaving children with fires and lamps, careless hunters, etc.

OREGON MUST HAVE A PORT EQUAL TO ANY PORT ON THE PACIFIC COAST

Initiative measure No. 310 on the ballot gives to the Port of Portland means to create such a port.

The primary object of this bill is to furnish the means to insure the opening and maintaining of a 30 foot channel from Portland to the sea and of building and establishing port facilities at the City of Portland sufficient to handle the foreign and coastwise shipping of that port.

The cost of this improvement will be met by the people living within the boundaries of the Port of Portland.

When you go to the polls November second vote 310 YES and give to the Port of Portland the power to maintain its 30 foot channel to the sea and to build adequate port facilities to handle all of the great products of the interior of the state.

The passage of this bill means lower freight rates for the products of Oregon in reaching the markets of the world and a consequent greater profit to the producers.

This is the most important and the most valuable measure that has ever been put up to the voters of the interior portions of the state.

VOTE 310 YES

OREGON PORT DEVELOPMENT LEAGUE, G. S. O'Neal, Secretary.
