**NOTICE**

The County Court of Morrow county wishes to call the attention of the public to the fact that on its September meeting, in compliance with the wishes of the representatives of a number of the Road districts who assembled in the court room at that time for that purpose, did redistrict the County in order to make the road districts smaller and more suitable to the residents of the various districts. A number of the districts are petitioning the Court to call a special road meeting in the district in order that the people of the district may talk over the matter of the road situation of the district and vote on a special road tax for the improvement of special places in the district that may especially require it. The present regular district money, which is a 2½ mill tax, the same as before the war, is insufficient to take care of the district needs and a small special tax appears to be the best solution of the problem. Blanks for the petition may be had by applying to the County Roadmaster or Clerk. Such petition the law requires, shall be signed by three or more freeholders of the district and presented to the county court not later than its regular November meeting.

Wm. T. Campbell, Judge. E. L. Padberg, Commissioner. George Bleakman, Commissioner.

**Fossils.**

Though historical geology and the study of ancient life depend chiefly on fossils, the term has been very vaguely and loosely applied. As a precise definition, a writer in Science proposes: "A fossil is an object which indicates former existence of an organism which has been buried and preserved by geological causes, previous to historic time." The mastodon preserved in the arctic ice is a fossil, a leaf buried in the gutter is not; and a truly petrified organism may not be a fossil.

**The Moral Risk**

When the time comes to seek credit, a bank will want to know what you ARE as well as what you HAVE. That's where the moral hazard comes in.

And you can't establish credit over night. Rather, it is a matter of becoming KNOWN in your bank, of establishing confidence by the way in which you have kept your account, regardless of the amount you have to your credit.

Get acquainted—that's the first thing. Then develop that acquaintance into friendship. It will stand you in splendid stead when the time comes. Remembering also, that this bank offers you a complete banking service.

**We Say to You**  
As We Say to All—

LET tone decide which phonograph you buy.  
Listen to different instruments, ask to  
have different records played. Compare  
The Brunswick with other phonographs.

Insist on a phonograph which plays ALL  
records, such as The Brunswick. Be not  
content with a phonograph designed for but one  
make of records.

The Brunswick plays ALL records, what-  
ever make. And plays them exactly as they  
should be played, with the proper diaphragm,  
needle, etc. And our all-wood Tone Amplifier  
gives them greater richness.

The new Brunswick Method of Reproduction is  
the most advanced and finest way of playing yet de-  
vised. All old standards are now discarded.

We will be glad to prove to you that The Brun-  
swick is the one phonograph you want. And to offer  
the same way of proving that Brunswick Records  
bring new standards. We abide by your decision.
