NOTICE

The County Court of Morrow county wishes to call the attention of the public to the fact that on its September meeting, in compliance with the wishes of the representatives of a number of the Road districts who assembled in the court room at that time for that purpose, did redistrict the County in order to make the road districts smaller and more suitable to the residents of the various districts. A number of the districts are petitioning the Court to call a special road meeting in the district in order that the people of the district may talk over the matter of the road situation of the district and vote on a special road tax for the improvement of special places in the district that may especially require it. The present regular district money, which is a 2½ mill tax, the same as before the war, is insufficient to take care of the district needs and a small special tax appears to be the best solution of the problem. Blanks for the petition may be had by applying to the County Roadmaster or Clerk. Such petition the law requires, shall be signed by three or more freeholders of the district and presented to the county court not later than its regular November meeting.

Wm. T. Campbell, Judge.
E. L. Padberg, Commissioner.
George Bleakman, Commissioner

YOU ARE WELCOME

The Moral Risk

When the time comes to seek credit, a bank will want to know what you ARE as well as what you HAVE. That's where the moral hazard comes in.

And you can't establish credit over night. Rather, it is a matter of becoming KNOWN at your bank, of establishing confidence by the way in which you have kept your account, regardless of the amount you have to your credit.

Get acquainted—that's the first thing. Then develop that acquaintance into friendship. It will stand you in splendid stead when the time comes. Remembering also, that this bank offers you a complete banking service.

**Here's the Secret
Of that wonderful "round" tone**

On hearing The Brunswick for the first time every music lover exclaims at its wonderful full, round, life-like tones. Back of the grill is the secret—an oval horn built entirely of wood on the violin principle. Sound waves are amplified and sent out to the listener in correct acoustical "circles." No metal touches them. That's the secret!
