COAT WITH CAPE OVER THE BACK

Garment Gives the Wearer Much Younger and Less Staid Appearance.

MANY LONG WINTER JACKETS

Three-Piece Suits Afford Separate Wrap—Popular Model Shows Three-Quarter Length Semi-Blousing Effect.

There is much to be said for coats with cape backs other than that they are exceedingly fashionable, observes a prominent fashion correspondent. They have the grace of a cape without any of its impractical features. There is the comfort of a good, substantial long coat combined with the artistic outline of the flowing cloak.

That the cape is never really absent from fashions proves that it must have some great staying power. There is some reason for women's always wanting it—for it is always finding a ready acceptance. What can this reason be other than its feminine grace? We may prate at length upon the practical in dress, but the practical minus beauty and artistic appeal never finds real favor.

The cape has considerable romantic and historical background. This probably bears a subconscious influence in its favor. Coming down to the purely practical, a coat is made much warmer by a cape falling over the back, but I cannot say that this has anything to do with its hold on fashions.

It can be claimed, however, that its youthfulness does much for it. Certainly a coat of this type gives its wearer a much younger and less staid appearance than the old-fashioned practical topcoat, which put the finishing touches in more ways than one on a perfectly good-looking costume, for, no matter how smart one's dress and hat might be, the effect was lost through the addition of a prosy looking coat.

Where Parisienne and American Agree

It may safely be said that the cape coat is one of this winter's greatest successes. It is much favored by both the Parisienne and the American. A most interesting cape from Fremont is gray velours de laine, and the lining, which is satin, exactly matches the cloth in color. This coat has practically two capes, as the large collar forms a short shoulder cape at the back. The large cape extends in a point at the back. It falls to within six or eight inches from the bottom of the coat.

Another model shows the short cape

which Jenny hangs from the top of high mandarin collars of fur attached to suit jackets. In this instance the cape is of blue serge, while the collar is of seal. This cape covers the back only. It does not extend over the shoulders, as many do.

A coat from Lanvin features the long cape back which is almost the entire length of the coat. A soft shade of gray duvetyne was chosen for this model. There are trimming bands of green applique embroidery down both sides of the front, also deep bands of the embroidery on the full sleeves.

Cape Back Effects Feature Suit.
The plaited cape back, almost in the form of a panel, is novel but not likely to find the favor that the plain cape backs have. Some of the best French makers feature the cape back of fur, not only on long coats but on short box coats, making these cape backs the same length as the coat itself.

The cape back effect on suits is also a noted feature. One very attractive model of blue serge has a high moleskin collar, from the back of which hangs a cape reaching to

FORDSON

MORE and more every day the demand for the Fordson Tractor increases because the Fordson has demonstrated so much usefulness, so much economy, so much labor saving, so much money saving, along so many lines of activity. The farmer has discovered that not only for plowing, harrowing, discing, seeding, mowing, reaping and threshing, but a multitude of other uses; cutting wood; feed; grinding feed; churning; washing; furnishing water in the house; making electric light possible in the house and around the barns; so that, as a matter of fact, there is hardly an hour in the day when the Tractor cannot be made a profitable servant. There is ditching to do; there are roads to fix; and so on all down the line of the numerous calls that constantly face the farmer the Fordson steps in and does the work, shoulders the complete burden of the toil and the hard work, one might almost say "drudgery."

This is the age of Machinery, the day when man plans the day's work, or the year's work, and then turns it over to the Tractor to execute. Get the book, "The Fordson at work," because it is free. If you cannot call for it, write and we will mail it to you. The Tractor is not only a necessity to every farmer, but is an established utility along a great many commercial lines. Our allotment is limited to so many each month. Let's have your order now.

WE ARE PREPARED TO SELL YOU A FORDSON TRACTOR ON TIME PAYMENTS. LET THE FORDSON PAY FOR ITSELF WHILE WORKING FOR YOU.
