### WHAT SOME OF THE SCHOOLS OF MORROW COUNTY ARE DOING

In district No. 8, through the efforts of the teacher, Miss Ruth Van Vector, a live parent-teacher association has been organized, and thru this organization a much needed barn has been erected on the school grounds.

In school district No. 16, Miss Margaret McDevitt, teacher of the Ella school, gave a box social which netted the district \$146.00.

With this fund the following articles were purchased for the school: Recitation seat, clock, bell, pictures, black board, teacher's desk and chair, besides sufficient paint to paint the interior of the school room.

Miss McDevitt has two pupils. She was obliged to ride a horse over the country to advertise the school. The school house was too small to accommodate the people, so Mr. Reisman's grain bin in district was borrowed for the occasion. There were not sufficient baskets to go around so that sandwiches and coffee were sold to the amount of \$22. Twenty-five baskets brought \$14.

These things show what can be done by a wide awake teacher, who has the school board and the community back of her.

District No. 21, Miss Margaret Ward, teacher, has been serving hot lunches in her district. The school house was repainted on the inside, and will have a coat of paint on the outside soon. A certificate will be given to all the schools that standardize this year. Following are the 1920-1921 requirements for standardization:

Flag must be flying on all school days.

Lighting—The total amount of window space must be equal to at least one-fifth of the floor space, and the light must only come from the left and the rear of the room.

Equipment—For teacher, desk substantial and large enough for books and records, fitted with locks, and noiseproof; chair, substantial and adjustable. For pupils, desks properly adapted and placed; suitable blackboards. Window shades in good condition. Each school must have a Beacon Phonograph and a Curtis cabinet with a supply of practice pads and a teacher's manual.

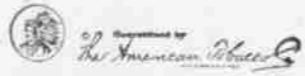

Heating and ventilating—Jacketed stove properly situated, or standard school heater. Smith, Waterbury or equivalent, or basement furnace; Charnometer hanging in the middle of the room.

Rooms—Attractive at all times. Standard pictures—One new one, unless four are already in the room, framed. A standard picture must be a copy of a picture listed in the

No cigarette has the same delicious flavor as Lucky Strike. Because Lucky Strike is the toasted cigarette.

state course of study, and should contain at least one hundred square inches in the body of the picture, or one hundred and eighty square inches including the frame.

Grounds—To be clean and free from paper, etc. At least three features of play apparatus, as given in the Oregon Recreation Manual, pages 25 to 32, inclusive. Walks if necessary.

Sanitation—Pure drinking water, either drinking fountain or covered tank and individual drinking cups; individual family or paper towels.

Outbuildings—At least two good ones, to be sanitary at all times and free from marks. Standard chemical toilet preferred; Kaustine or equivalent.

Teacher—Must maintain good order at all times; supervise playground; have her work well prepared; follow state course of study; take at least one educational journal have daily program, approved by county superintendent, posted in room within first month of school; keep register in good condition; be neat in attire.

Library—Good selection of at least one hundred books from state list, part 2, excluding duplicates. A case for books. Books must be kept in good condition, and recorded according to rules specified by the Oregon State Library and required by law. A set of standard maps, at least four in number; a good map

### NOTSON DISCOVERS NEW WORM AT BOARDMAN

A Herald representative interviewed Sam Notson the other day in regard to his views of the latest developments in the Banana belt to-wit: Sam Boardman's report of the worm farm. Sam Notson says that the whole Banana belt is well suited to raise worms. He says that Alfred Nelson, on his ranch in the southern part of the belt has succeeded in raising a very valuable kind of worm Alfred sent to Alabama and had an old negro angler of wide experience send him an angle worm from the coast section of the state. He crossed this worm with the sand load or lizard, and has produced a worm which has a very clear little bark. He puts a half dozen of these worms into a stream or lake in which there are fish. These worms swim about in the water and by their barking frighten the fish so much that the fish will fight each other for a chance to get hold of a hook, even if it is unbaited, so as to escape the hook. Mr. Notson also says that he has secured all the fish he desires, he just whistles for the worms to come up, and he returns them to their home on the ranch. He says these worms thrive in the dry land as well as in irrigated lands. The only difficulty in raising them is to keep them supplied with the proper food. They live almost exclusively upon bananas. Mr. Notson explained that this is not a "still" worm and that his interest in the matter is strictly as a fisherman and not in his official capacity as district attorney.

of Oregon; a globe and an International dictionary.

Attendance—Average of 92 per cent for the year and not to exceed 2 per cent in tardiness per year.

School visits—Visits from members of the school board during the school year must number four and total at least four hours.

Supplementary Readers—School libraries must contain sufficient sets of supplementary readers to supply the members of each class from the first to the fourth, inclusive. Supplementary readers must be selected from the official adoption.

One new requirement is added each year. The counties in the state will be graded, and standardization is to be one of the points.

When a school has been standardized for three years in succession, an outside sign will be posted on the building. School boards, please aid your teachers and thus make your school a standard one.

Lena Snell Shurte,  
County School Supt.

### LEGAL NOTICES

**NOTICE FOR PUBLICATION**  
 Department of the Interior, U. S. Land Office at La Grande, Oregon, December 29, 1920.

NOTICE is hereby given that Ida L. Dykstra, whose post-office address is Heppner, Morrow Co., Oregon, did, on the 26th day of February, 1920, file in this office Sworn Statement and Application, No. 026558, to purchase the NE 1/4, Section 32, Township 4 South, Range 28 East, Willamette Meridian, and the timber thereon, under the provisions of the act of June 3, 1878, and acts amendatory, known as the "Timber and Stone Law," at such value as might be fixed by appraisal, and that, pursuant to such application, the land and timber thereon have been appraised at \$445.00, the timber estimated 285,000 board feet at \$1.00 per M, and the land \$160.00; that said applicant will offer final proof in support of his application and sworn statement on the 21st day of March, 1921, before the United States Commissioner, at his office, at Heppner, Oregon.

Any person is at liberty to protest this purchase before entry, or initiate a contest at any time before patent issues, by filing a corroborated affidavit in this office, alleging facts which would defeat the entry.
