

U. S. FARM LOAN HELD SUCCESS IN OREGON

TOTAL OF \$11,542,490 TAKEN IN THIS STATE

Figures for Second Congressional District Show Details of Payments Made in Various Counties

(Telegram Washington Bureau) WASHINGTON, April 9.—Congressman Nicholas J. Simmt has secured from the farm loan bureau largely through the assistance of former congressman A. F. Lever, nationally known as the author of the Lever food control bill, a mass of information concerning the operation of the federal farm loan act in Oregon, and particularly in the second congressional district, which has the distinction of having practically one-half of all the farm loans granted under the farm loan act in Oregon.

Up to date the total amount that has been loaned in Oregon through this organization, the headquarters of which are at Spokane, amounts to \$11,542,490. The total number of borrowers in Oregon is 38,000. In the second congressional district, the number of borrowers totals 1588, and the total amount of loans granted in this district amounts in the aggregate to \$5,243,925.

Distribution of this money thru the second congressional district is interesting, and shows activity in every county. The association, the number of borrowers and amounts loaned to each association are shown in the following table:

last Wednesday evening. A pleasant evening's entertainment was enjoyed by those present.

Dr. Hayden of Hardman, was a business caller at Judge Cornell's court here Saturday afternoon during which he admitted having been drunk again and contributed \$27.50 to his own community chest.

Heppner lodge of Elks will install new officers next Thursday evening and all members of the order within reach of Heppner temple are expected to be present. There will at so be initiation and a line of big cats.

Members of the Blue Lodge, Masonic fraternity, enjoyed a farewell party last Wednesday evening at the Masonic temple, the affair being given in honor of Oscar Borg, who with Mrs. Borg, left Thursday morning for Missoula, Montana. A pleasant evening was reported.

A. M. Zink, well known farmer of the country north of Ione, is a visitor here today, a guest at Hotel Patrick. Mr. Zink struck a flow of natural gas on his farm about a year ago and he says the flow appears stronger than when first discovered. The gas burns from the outlet pipe a couple of feet high continuously. The rock fill at the junction of the Rhen creek market road with the Oregon-Washington highway at the mouth of Rhen creek which is being built by Oliver & Altmann, will probably be completed this week. It has been a rather expensive piece of work on account of the big fill required to reach the highway grade but it is there to stay.

Doc E. J. O'Rourke and his wife, Mrs. E. J. O'Rourke, drove up from The Dalles yesterday to spend a few days visiting friends. Both were former well known residents here and probably very popular among the Heppner people. Some level Heppner highway, an extended trip to Ireland, returning to The Dalles last August.

Chas. H. Latourell, manager of the Ford agency, reports the recent sale of Ford cars as follows: Coupe to Ralph Smith of Boardman; touring car to Morrow county for the use of Roadmaster McCaleb; wire-wheel touring car to John Doherty; Mr. Latourell drove a cute little roadster out from Portland the other day that Andy Road is said to be eyeing pretty closely.

IMPROVING CEMETERY HILL

The big caterpillar tractor and grader belonging to the county road department were at work yesterday on Cemetery hill, south of town, improving that thoroughfare. The road was in bad condition and becoming dangerous to funeral corteges going to the cemetery. The use of the machinery was donated by the county for the day, the wages of the operators and the cost of gasoline being paid for by the city. The "car" waddled its way on down to Lexington in the evening where some road work is to be done.

HIGH SCHOOL NOTES

The Heppner high school baseball team returned Saturday evening from a successful trip to Pilot Rock where they defeated the Pilot Rock team by a score of 11 to 2.

The lineup for Heppner was Peterson, pitcher; Young, catcher; Boyd 1st base; Smith, second base; Ferguson, short stop; Secon, 3rd base; Shure, right field; Chidsey, center field; and Logan, left field. Peterson and Young worked together to a very good effect, Peterson pitching a two hit game and Young getting in bases so numerous that base stealing was almost impossible. The infield worked so well that the outfielders had an easy time. Not only did the Heppner boys play a good defensive game, but when it came to hitting they put one nitcher out of the box in two innings, the second nitcher was not so easy but nevertheless the boys got enough hits off him to bring in six more runs before the game was over. The heavy hitters in this game were Logan, Peterson, Secon and Ferguson. Logan was called for his two batters, Secon for his hunting and Peterson and Ferguson kept us a steady string of hits all during the game. Every member of the team got at least one hit. Heppner expects to meet Pilot Rock here on April 27.

Practice is in full swing on the student body play "What Happened to Jones" under the direction of Miss Chisler. This play will be given at the theatre some evening in the near future and all who are interested are promised a full evening's amusement.

The high school must sell about one hundred and fifty more season tickets this week to finance the baseball schedule that they are planning. The tickets for sale this week will be \$1.25 for adults and 85 cents for students. The tickets will be good for the remaining five games on the Heppner diamond. This will be the last week that season tickets will be on sale. General admission to the games will be 25 and 50 cents, so buy our season tickets and save your money.

Heppner high plays Stanfield high on the Heppner diamond next Saturday. The Stanfield game will be one of the hardest games that Heppner will be up against this year, and a very close game is expected. Be there.

Good use is being made of the new tennis court that P. T. A. built for the high school girls. The high school is very grateful to the P. T. A. for the court and will see that it is kept in use all of the time.

THE UNIVERSAL CAR

DO YOU KNOW that there are more FORD cars being sold in Morrow County this Spring than there is of all other makes combined?

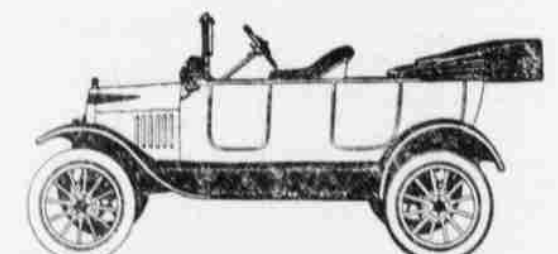

WHY?

Because the FORD TOURING car is the only really all around, low priced, general purpose car.

The FORD TOURING car will do anything, go anywhere.

GOOD ENOUGH TO GO TO CHURCH OR TO A PARTY IN

NOT TOO GOOD TO HAUL A CRATE OF POULTRY OR A VEAL TO MARKET IN

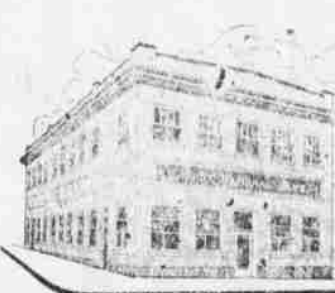

The Big, High-Priced, Gas-Eating, Garage-Supporting Cars have helped put Morrow County in the financial hole. The FORD TOURING Car will help pull you out of that hole if you will buy one and give it a chance. The first cost, cost of operation and upkeep in tires and repairs are low—negligible, in fact when compared with big expensive cars.

The FORD TOURING Car will make and save you money during the busy summer season.

Non-Shrinkable Investments

Many classes of investments have shown large shrinkages in value during the past year—stocks, bonds, real estate, etc.

But you haven't noticed any shrinkage in the value of a savings bank investment, either in principal or interest. If your money is here, it earns a fixed rate, which you can depend upon.
