

IRRIGON

Mrs. Stewart were the early arrivals at the fire and did very effective work. It is thought a short in the wiring somehow caused the ignition and when the gas tank became warm the fire made rapid headway.

Mr. H. G. Lane of the Umatilla Garage and Mr. Turner were in Irrigon Thursday. Later they were seen going home with their car loaded with hay. Looks like Herbert might be going into the dairy business.

Jay Berry, who has been on thirty day leave of absence, returned to The Dalles Thursday and was assigned to the first division fireman extra for running out of Portland. Mrs. Berry reports that he has been working very hard since. Looks like Irrigon has picked up a little.

Mr. Luther Haydon of Seattle arrived Sunday and is visiting at the Glasgow home. He says he left Seattle where they were having beautiful weather.

The ball game Sunday between Umatilla and Irrigon turned out rather one-sided, the score being 17 to 0 in favor of Umatilla. The Irrigon team played with many disadvantages. Jay Berry who had to run out of Portland, supplied the team to start with. Lawrence Markham's team gave up early in the game. Marshall Marchant scratched his leg about the seventh inning and had to get out. Dale Watkins could not take base, causing an entirely different lineup all around. Raymond Jordan one of the special boys, had to be taken in for a pitcher for a couple of rounds but could not hold out. However, everybody had a good time. The Irrigon boys made the nine runs in the seventh inning so that was worth fifty cents of any man's money.

every night, which speaks well for the speaker. To get out a crowd except at a ball game these busy days is something in itself.

CECIL

Mr. C. E. Glasgow shipped the first lot of asparagus Monday. This is a little earlier than usual and is first quality.

Carl Young, again buyer from Ione was doing business around Cecil Wednesday.

BOARDMAN

The following teachers were elected Monday night to positions in the Boardman schools for next year: Mr. Guy L. Lee, Monmouth, Ore., will have charge of the Junior High. Mr. Lee is a unusual graduate with considerable experience in upper grade work, sherns and hand experience, and comes highly recommended.

Leading wool growers in southern Idaho and Eastern Oregon at a conference held at Boise last Saturday, decided to pool all of this years wool clip and store it in Portland to await better prices, when it will be shipped to Boston by steamer, according to a dispatch from that city to the Oregonian. Harry Coon a representative of the growers has been sent to arrange for the storage.

was found in the mercury treated. This was true even when the diseased tubers had only a half hours soak in the mercury solution, a practice that may be necessary when the seed is well sprouted before treatment.

LOCAL NEWS ITEMS

Do you know that Heppner has a dramatic club? Fresh pure lard is only 25 cents a pound now at the Central Market.

As a general practice the station recommends that all potato seed be treated with the corrosive sublimate solution and planted on ground that has not borne a potato crop for two or three years.

POTATO SEED DISEASES CHECKED BY TREATMENT

"By far the best results in the control of potato seed diseases with corrosive sublimate—mercuric chloride solution, 4 ounces to 50 gallons of water," says M. B. McKay who produced extensive tests on the college experiment station grounds. Untreated seed produced a crop 85 per cent diseased, while like seed treated with the mercury solution grew a crop only 17 per cent diseased.

RABBIT DRIVE SUNDAY WAS SUCCESSFUL

A considerable number of Heppner people drove out to Juniper canyon last Sunday to take part in the rabbit drive which took place that day. Estimates vary as to the results accomplished but by striking an average it is concluded that about 500 men and boys took part in the drive and that about 500 rabbits were slain—a sort of 50-50 proposition.
