Give Us a Fair Rate of Return

is a good slogan for any industry. But it is a very timely one right now for the electrical industry.

Everyone wants good electrical service and every one will get good electrical service, but they must be shown that unless a central station or lighting company is allowed to earn on a full and proper value and not on a depreciated value that central station or lighting company cannot continue to serve in a proper and efficient manner.

Let every man who has a stake in the industry take this fact to heart and convince his neighbors and friends... Put your shoulder to the wheel and then get every one to do likewise.
