Give Us a Fair Rate of Return

is a good slogan for any industry. But it is a very timely one right now for the electrical industry. Everyone wants good electrical service and every one will get good electrical service, but they must be shown that unless a central station or lighting company is allowed to earn on a full and proper value and not on a depreciated value that central station or lighting company cannot continue to serve in a proper and efficient manner. Let every man who has a stake in the industry take this fact to heart and convince his neighbors and friends. Put your shoulder to the wheel and then get every one to do likewise.

"In Every Respect" says the Good Judge

You get more genuine chewing satisfaction from the Real Tobacco Chew than you ever got from the ordinary kind. The good tobacco taste lasts so long—a small chew of this class of tobacco lasts much longer than a big chew of the old kind. That's why it costs less to use. Any man who has used both kinds will tell you that.

"RISKY BUSINESS"

SHE was as innocent as a kitten, as mischievous as a monkey. She could chatter like a chipmunk, fight like a tiger and dance like the devil. That is—until she got warped into a lot of terrific love affairs and a whole basket of trouble. She concluded then that too many handsome young men was "RISKY BUSINESS." See it. T. S.
