

Give Us a Fair Rate of Return

is a good slogan for any industry. But it is a very timely one right now for the electrical industry. Everyone wants good electrical service and every one will get good electrical service, but they must be shown that unless a central station or lighting company is allowed to earn on a full and proper value and not of a depreciated value that central station or lighting company cannot continue to serve in a proper and efficient manner. Let every man who has a stake in the industry take this fact to heart and convince his neighbors and friends. Put your shoulder to the wheel and then get every one to do likewise.

HASSLER SHOCK ABSORBER EXPERT GIVES DEMONSTRATION

A. Winn, manager of the Portland branch of the Hassler Pacific Company, accompanied by Howard H. Douglas, expert installer of that company's shock absorber, were here Saturday when Mr. Douglas gave demonstrations in putting the devices on Ford cars at the Ford agency. The purpose of Mr. Douglas' work is to introduce the device and to show that the same can be attached to any Ford car in 30 minutes or less. Some time ago the company offered a prize of \$500 to any man who could put on a set of the absorbers in 20 minutes and Mr. Douglas took down the money the other day with 59 seconds to spare.
