### IRRIGON

Mr. and Mrs. F. G. Grover and family of Monmouth, Oregon, arrived Sunday and are camped in the Mrs. Castle house for a month while the large Boeckly house near the school house is undergoing some necessary repairs and a general cleaning. When this is done they will move into it in order to be close to the school. Mr. Grover will be principal of the school for the coming year. G. H. Coffin drove through from Monmouth in a truck bringing their household goods over and F. H. Ricks loaded him up with watermelons for the return trip Tuesday morning. Garland Jude, of Portland, is visiting Lyle Seaman this week. He left Portland about Thursday morning and arrived in Irrigon at noon Friday, making the trip in a day and a half. He did not make much success in walking, however, as he was picked up by tourists who insisted upon delivering him to the very door of his destination. They were however, repaid by a watermelon feast. The parties were people from Oklahoma and treated the boy royally all the way through.

Mrs. C. E. West and daughter, of Greybull, Wyoming, who have been visiting Mr. and Mrs. A. B. Chaney for the past couple of weeks, returned to Greybull Sunday.

Wait Rising spent a few days with F. L. Wait last week and returned to Portland Sunday.

The Sunday School board has purchased a \$585 Smith & Barnes piano for the new school building through M. E. Shurte, of Arlington.

See letter from seed house on potatoes shipped to Irrigon and don't forget to advise Mr. Seaman if you wish to secure any of this certified seed as adjustment at the low figures quoted. Some have already booked their wants and the list will be closed early in September.

The bulk of the watermelons have moved out. There are only about half as many going out now as there were up to the first of the week. This does not mean that there are no melons here for we can still supply the markets close by.

W. W. Agee shipped in his flock of white leghorn chickens from McMinnville Friday by express consisting of 14 coops, and is going ahead with his plans of the poultry business on a large scale.

Mr. and Mrs. L. D. Saling and Mr. and Mrs. F. F. Fagerstrom had a picnic dinner with friends from across the river, on Bialoek island Saturday. They also hunted Belgium hare which are quite abundant on the island.

**Requisitioned the Moon.**  
When our town was first lighted with electricity the town council decided not to have the street lights turned on when the moon was shining brightly. One evening our son noticed that the street lights were not on but that the moon was shining brightly, so he came running in and said, "Oh, ma, they thought they would not turn on the electric lights tonight, so they just turned on the moon."—Exchange.

**Olive Oil in Babies' Diet.**  
Dr. E. E. Graham of Philadelphia recommends the addition of olive oil to the diet of babies in their first two years. It is digested well by most infants and supplies them with additional fat.

**Telephone to Deaf.**  
The receiver of a telephone set for the deaf that has been invented in Germany is small enough to be hidden in a person's ear, while the transmitter can be carried in a handbag or fastened to clothing.

#### Slighted Heroes.

The children were talking about a movie actor while eating their luncheon one noon. One boy was graphically describing his actions and thrilling deeds with his horse. Presently he turned to me and asked: "Miss Mary, why don't we talk about him like we do about George Washington and Lincoln?"

#### Small Boy's Lament.

Ernest was ailing and obliged to miss a day in school. His mother prepared dainty food for him and nursed him in a manner to his liking. The next day as he started to school he was heard to mumble, "O, why didn't I have enough sense to stay sick? I just didn't know a good thing when I had it."
