

LEGAL NOTICES

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at La Grande, Oregon, September 29, 1921.

Notice is hereby given that Willie Ruddy, of Lena, Oregon, who, on September 23, 1916, made Homestead entry, No. 016541, for E 1/2 NW 1/4, S 1/2 SW 1/4, Section 34, Township 3 South, Range 29 East, Willamette Meridian, and Lots 3, 4, S 1/2 NW 1/4, Section 3, Township 2 South, Range 29 East, W. M., has filed notice of intention to make final three-year proof, to establish claim to the land above described, before United States Commissioner, at Heppner, Oregon, on the 29th day of November, 1921.

Claimant names as witnesses: Francis McCabe, Philip McCabe, Edd Doherty, Tom Gill all of Lena, Oregon. C. S. DUNN, Register, 2530

NOTICE OF FINAL SETTLEMENT

Notice is hereby given that the undersigned has filed his final account as administrator of the estate of A. H. Leonard, deceased, and that the County Court of the State of Oregon has appointed Monday, the 8th day of December, 1921, at the hour of 10:00 o'clock A. M. as the time, and the County Court room in the Court House at Heppner, Oregon as the place, of hearing and settlement of said final account.

Objections to said final account must be filed on or before said date. S. H. BOARDMAN, Administrator, 27-31

NOTICE TO CREDITORS

Notice is hereby given that the undersigned has been appointed by the County Court of the State of Oregon, for Morrow County administratrix of the Estate of Clemens P. Dutton, deceased, and that all persons having claims against the said estate must present the same, duly verified according to law, to me at the office of my attorney, S. E. Notson, in Heppner, Oregon, within six months from the date of the first publication of this notice, said date of first publication being this 1st day of November, 1921.

ALLIE WINNARD, Administratrix, 27-51

NOTICE FOR PUBLICATION

Public Land Office, Department of the Interior, U. S. Land Office at The Dalles, Oregon, October 24, 1921.

Notice is hereby given that, as directed by the Commissioner of the General Land Office, under provisions of Sec. 2455, R. S., pursuant to the application of Claud Huston, Serial No. 929457, we will offer at public sale, to the highest bidder, but at not less than \$2.00 per acre, at 10:15 o'clock A. M., on the 14th day of December, next, at this office, the following tract of land: NE 1/4 NE 1/4, Sec. 23, T. 5, S. R. 25, E. W. M. (Containing 40 acres.) This tract is ordered into market on a showing that the greater portion thereof is mountainous or too rough for cultivation.

The sale will not be kept open but will be declared closed when those present at the hour named have ceased bidding. The person making the highest bid will be required to immediately pay to the receiver the amount thereof.

Any persons claiming adversely the above-described land are advised to file their claims, or objections, on or before the time designated for sale. J. W. DONNELLY, Register, T. C. QUEEN, Receiver.

SYDNEY ANDERSON

Representative Sydney Anderson, Minnesota, is chairman of the joint commission of agricultural inquiry.

PERFECT DIME-NOVEL HERO

Thomas Stukely Peer of Any of the Adventurers Who Flourished Under Good Queen Bess.

A career so lurid and impregnated with a dime novel atmosphere has scarcely ever been seen outside the covers of the penny dreadfuls as fell to the lot of Thomas Stukely as it ran the gamut from matrimony to piracy, interspersed with dashing, gallant and fearless bravery which has caused his name to be remembered when many a better man has sunk to oblivion. Stukely was an adventurer by nature. His mother was Irish and of a very good family, and it is said that he could claim as his father Henry VIII of England. Stukely acquired a great fortune by marrying a lady of wealth and proceeded immediately to spend it with the greatest dispatch. Sir Walter Scott says that gallant ruffled it with Raleigh and the best of them at the court of Queen Elizabeth. His first matrimonial scheme was to find a kingdom for himself in Florida. Then he went to Ireland and gained considerable influence over Shane O'Neill, the most powerful of the native chieftains, helping him to gain a decisive battle. Stukely never gave up his career as a merchant and still retained ships which, under the guise of peaceful traders, committed infamous piracies. On being discovered he went to Spain as a grandee and thence to Rome. At the great naval battle of Lepanto he commanded one of the papal ships.—Chicago Journal.

WAVES OF GIGANTIC HEIGHT

Thousands of Tons of Water Not Infrequently Poured Upon Decks of Ocean Vessels.

Even in stormy weather the average height of waves in mid-ocean does not as a rule exceed 30 or 40 feet. Sometimes, however, one enormous wave makes its appearance amidst the rest. Why this should happen no one can say. All we know is that a mighty mass of water rushes suddenly toward a ship at the appalling speed of over 100 miles an hour.

If the ship can meet such a wave with her bows she will ride over it, though thousands of tons of water may sweep over her decks. But if the wave is following her and rushes at her from the stern, she may fall to rise. Many a good ship has gone to her doom in this way.

These vast mountains of water rise sometimes to a height of more than a hundred feet—as high as the spire of a church. They have been known to extinguish the mast-head lights of sailing ships. Sometimes on a perfectly calm day there will be a sudden troubling of the surface of the sea, and without the slightest warning a wave 150 feet high will appear.

Plant Societies.

It appears that the knowledge of botany has been greatly advanced by the development of what may be called the sociology of plants, that is, the study of their relations to one another, as well as their adjustments to surroundings. Botanists recognize that plants are not scattered haphazard over the globe, but are organized into definite communities. A pond has its plant society, all the members of which fall into their proper places. A swamp-forest consists of trees possessing a certain social relationship, and differing from those that form a forest on dry land. There is progression from one social organization of plants to another. A lily-pond may give place to a swamp-forest, this to a society of swampy shrubs, and this, again, to a swamp-forest of tamarack, pine and hemlock. So societies of plants on dry lands succeed one another as the conditions change.

Cause of Volcanic Explosions.

Volcanic explosions are commonly regarded as the release of stores of energy kept confined by external pressure, and belted explosions and geysers eruptions are typical of this class of outbursts. An expert of the United States geophysical laboratory finds that another class of explosions, that of explosive mixtures like gun powder, are not likely to occur in volcanoes. But a third class, that of explosive compounds brought into contact with oxygen or water, is probably the usual source of volcanic explosions, and is illustrated by aluminum sesquioxide—finely divided—brought into such relation with water in the electric furnace that mechanical detonation causes violent explosion. The dust of Mont Pelee may have been analogous to the aluminum sesquioxide.

The Indians' "Pipe of Peace."

The calumet, the "pipe of peace" of the American Indians, was used on all ceremonial occasions, but especially when treaties of peace were being ratified. Each warrior took a solemn puff from the pipe as it was passed around the circle. Native tobacco, with which willow bark or sumac leaves were mixed, was smoked. The bowl of the pipe was made of white stone in the East and Southeast. In the West it was made of a red clay obtained from the famous pipestone quarry of Minnesota, mentioned in Longfellow's "Hiawatha." The pipe had a very long stem, made sometimes of wood, sometimes of reed. Feathers, porcupine quills and women's hair were used as decorations on the stem. The name "calumet" originated with the French Canadians.

The army of the disabled keeps growing

In Hospitals under Government Care. The Red Cross is spending Ten Million Dollars a Year to help the ex-service man and his family. Annual Roll Call Nov. 11-24, 1921

To bring before the country in visual form the vast problem it is helping to solve, the American Red Cross has prepared for its Annual Roll Call, Nov. 11 to 24, a poster showing how rather than diminishing the total of World War veterans entitled to Federal aid continues to grow. Red Cross Service to these men is costing \$10,000,000 a year.

NEW INTERPRETATIONS OF OLD FAVORITES

IN THE procession of styles each season, new interpretations of old favorites are more certain of welcome and success than unaccustomed things can be.

The middy blouse is an institution, like other blouses, and it is among these old favorites that are newly interpreted each season.

Among colored blouses, crepe de chine appears to be a favored fabric. Some of the new models are high-necked. Narrow folds of the material make an effective finish for them, but there are many other ways of trimming them. The tie-back style reappears with its elongated waist line and snub apron. It is handsome in dark velvet, lined with contrasting silk that shows through cut-out slashes bound with the same silk. Velvet overblouses with short peplums cut without sleeves and worn over georgette underblouses, are handsome and dressy. They are usually decorated with silk embroidery. Georgette and velvet are chosen for the most elaborate models while crepe de chine lends itself to plainer but not less distinguished styles.

All we ask of our old favorites is that there shall be something new about them, some little cleverness or originality in their composition or their decoration, or in the materials used, or in the ways of using those we have long known. And now the new fall blouses are showing just how well they can more than fill our expectations. They are made of georgette.

Julie Bostrom

Which Blow Out Finally. The way of the transgressor is hard, but he can generally afford pneumatic tires.—Boston Transcript.

Sea's Depths Always Cold. It is always cold at the bottom of the sea, even under the equator. At great depths the temperature is near the freezing point.

Would Be Worth Seeing. In the geometry class a difficult problem arose. The teacher informed the pupils that he would put it on the blackboard and explain it. After carefully and tediously working on the diagram he addressed the class thus: "I want every one in this class to watch the blackboard now as I run through it."

Rolled Barley

I am prepared to furnish the finest quality Rolled Barley at fair and honest prices.

I also handle a complete line of gasoline Kerosine and Lubricating Oils. Satisfaction to customers is my motto.

OUR IDEAS

are sometimes good

But we have something that is better. We aren't in the "idea" business, but when it comes to the cutting and selling of choice meats we don't take our hat off to any one.

Our cooler is always kept at the right temperature to keep the fresh meats FRESH and our ambition has always been—and always will be—to keep our customers supplied with the choicest of meats, whether they be fresh or salt meats. And when there's a better way discovered to cure meat, then we'll have better cured meat.

Red Cross Gives \$310,000 to Aid 'Clean-Up' Drive

An appropriation of \$310,000 for Red Cross work in connection with the "clean-up" campaign instituted by the Government to bring the claims of all disabled service men who are entitled to Federal aid before the proper government bureau for action, has been made by the American Red Cross. The Executive Committee of the American Red Cross in making the appropriation authorized the appropriation of \$35,000 of this sum to the American Legion to defray the expense of the Legion representatives assigned to the various districts of the Veterans Bureau.

The remainder of the appropriation was authorized for apportionment among the several Divisions of the Red Cross for carrying on that part of the "clean-up" work that falls directly upon the Red Cross organization.

Young America Sends Vast Relief To Needy Abroad

Various relief projects of the Junior American Red Cross in European countries resulted in helping 237,000 destitute children during the last fiscal year, according to the annual report of the American Red Cross for that period. The growth of the activities of the Juniors abroad is manifested by a comparison which shows this figure is 200,000 larger than that of the previous fiscal year.

The National Children's Fund raised by school children, members of the Junior American Red Cross, was drawn upon for \$420,557 for these projects. Receipts for the National Children's Fund during the last fiscal year totaled \$155,317.

America Succors Russians Food, clothing and medical relief costing \$700,000 has been provided by the American Red Cross for the thousands of Russian refugees stranded last year in Constantinople and vicinity.
