

Why He Loses Control.
There are two things a man cannot control. One is the weather, and the other is his wife.—Cincinnati Enquirer. He frets because he cannot control the first, and he is foolish enough to try to control the other.—Canton (O.) News.

Telling Age of Mistletoe.
It is a comparatively easy matter to learn the age of growing mistletoe, as each shoot sends off two new shoots each year, and by counting the joints from the root to the tip of any branch the number of years the mistletoe has lived may be computed easily.

Let Us Be Your Screw Driver
If there is anything we would rather do than fix an automobile that acts like an unruly boy in Sunday school, we can't think right now what it would be. Anything from the carburetor to the "interpinkum" is easy for us and when we have overhauled your car the only thing you have to worry about is steering it so it will stay in the straight and narrow way.
There may be better repair men in the United States but none of them have happened along this way. And you don't have to take our word for it—make us prove it.
