

Making Fumigating Tents for California Groves

These men are busy making tents, but the tents are not to shelter people, but to cover the orange trees of California so they may be fumigated to kill the destructive bugs.

San Fernando Mission Is to Be Restored

A job of landmark restoration that will require two years to complete and which will cost \$25,000, has been launched in the case of the famous San Fernando mission in California. Parts of the old mission, established by the Franciscan Fathers from Spain for the purpose of converting Indians in the early days of the West, have been entirely lost, through crumbling and decay. The photograph is of one of the buildings that has been kept in fairly good repair.

DAINTY NECKWEAR CONVEYS NOTE OF FEMININE CHARM

A BIT of lace is a wondrous thing. Within its patterned meshes of immaculate daintiness, is indelibly stamped the message of feminine charm. Fine lace and rare embroideries proclaim the presence of the gentlewoman.

There is no dress or suit so plain or unattractive but that it is amenable to the transforming power of beautiful neckwear. No wonder so many of us through the neckwear section of our favorite dry-goods store on Saturday afternoon. It is the eleventh-hour rush to add the "touch that tells" to our costume for the morrow, for we all realize that exquisite neckwear will ever be recognized as the essence of good dressing.

Even sweaters have succumbed to the lure. That is, young girls are wearing within the V-shaped necks of their gay colored slip-on sweaters, collars and trills of fine net and lace. The picture herewith shows the infinite attractiveness of fine lace accented

against a heavy wool-knit background. Every well appointed wardrobe should include various versions of lace with net gimpes or vestees. In selecting, it is well to know that vintage lace is again in favor. It is used in combination with valenciennes or filet lace and net. For its effectiveness, refer to the vestee illustrated herewith.

Irish crochet lace is at a high pitch of popularity, so is filet. Soft eern fluting is preferred, and plentiful fine tucked net is used in connection with all lace and sheer embroidery.

Deft fingers are fashioning the loveliest sort of collar and cuffs out of scraps of lace, transparent organdie embroidery, medallions and point d'esprit net.

Point of Interest Screened.
The haunts of the dinosaur in the Red Deer valley, in Canada, have been screened by the department of trade and commerce. The place where these relics of millions of years ago are found is about 100 miles east of Calgary, in a canyon of the Red Deer river, which is just as beautiful as the Grand canyon, but about one-seventh its size. It is the only place in Alberta where the cactus grows.

Ocean Insect.
The sea bug holobates is the only insect living on the surface of the ocean, and what it eats is unknown.

Pacific Sturgeon.
The Russian sturgeon, known as beluga or ulsoo, is very large. It has been known to grow to the length of 23 to 25 feet and to weigh 3,000 pounds. At spawning time, a female produces from 2,000,000 to 3,000,000 eggs, constituting from one-fifth to one-third of the entire weight of the fish.

Remarkable Prehistoric Caves.
Tunnels and passages, measuring about twenty miles in length, and cut in the solid chalk 90 feet below the surface, are to be found in the famous prehistoric caves at Chislehurst, Kent, England.
