**Surely.**  
 Some little time back a professor in the medical department of a certain college asked one of the more advanced students: "What is the name of the teeth that a human being gets last?" "False," was the reply.

**A NEW STYLE GARMENT**

In this new-style garment a three-quarter length coat of plain cut falls over a dress consisting of skirt of the same material as the coat. Skirt is carried up and over the shoulders, covering all but collar and sleeves of silk, linen or cotton blouse.

**FASHIONS IN BRIEF**

Dresses with matching capes continue to be vogue smart.  
 Paisley patterns shown in silks, are used to fashion smart gowns in copy of importations.  
 A new collection of imported gowns show the light-fitting sleeve which forms a point over the hand.  
 Velvet is much in vogue for the winter. Sometimes it is heavily beaded but more often plain. All shades of rose and red are modish for evening.  
 Fur hems are a part of some of the new suits. If there is a hem of fur there is, of course, a collar of fur to the jacket and usually there are also deep cuffs of fur.  
 Plush or velvet are the favored materials which are used in moderation, plumes treated in all sorts of ways and ribbon flowers are the popular adornments.

**An Easy Belief.**  
 Nothing is easier than believing that duty calls when you want the job anyway.—Ohio State Journal.

**Well, Isn't Cynic About Right?**  
 The expression, "poor but honest," wasn't coined by a cynic. A cynic would have said "and therefore" instead of "but."

**The Secret.**  
 To be successful all we have to do is to make as much of a business of our own business as we do of the things that are none of our business.

**Proper Criticism.**  
 Actions speak louder than words; therefore criticize by creating new standards, not by finding fault with old ones.

**Honey Bee Is Prolific.**  
 The honey bee has been so prolific in Australia that it would be possible to gather honey in tons if it were profitable.

**Not Fair.**

**Odd Effect of Frozen Air.**  
 A beefsteak frozen in liquid air becomes so brittle that it is shattered like china if struck a light blow.

**It Costs You Money**

Every day you delay in placing your goods before the public is costing you money.  
 True, everyone may know you're in business—know where your store is, but they do not have the time to run to your store to find out about the new things you are showing, about the special bargains you are offering and the hundred and one other things that make your store an interesting place to visit.  
 Many people may be going past your store every day to buy something you could sell them at a lower price than they are paying—and why? The other fellow invited them to buy—that's all. You didn't.

**Help You Choose Tires**

500 miles at 94.48 miles an hour—a relentless grind over a rough-finished, sun-baked concrete and brick pavement at record-breaking speed—that is the gruelling test Oldfield Cord Tires underwent successfully at Indianapolis Speedway May 30th. They were on the winner's car for the third successive year and on eight of the ten finishing in the money, upholding the confidence successful race drivers have in the trustworthiness and ability of these tires to meet the greatest demands of speed, endurance and safety. Their records in every other important race have been equally as good.

Consider this achievement along with another test of Oldfield quality made at Wichita, Kansas, this past winter and early spring.

34,525 miles on rutted, icy Kansas roads, running day and night on a Studebaker stock car without a single tire change. This test was made by a group of Wichita automotive dealers in a tire, oil and gasoline economy run. Mayor Kemp of Wichita was official observer and made affidavit to the mileage and service given by Oldfield tires.

You may never subject your tires to the gruelling experience of Indianapolis nor the steady grind of bad winter roads, but it is good to know you can get such safety and mileage economy by buying Oldfield tires. Ask your nearest dealer.

**165% Increased Business**  
 The buying public is the surest barometer of the value of any article. The approval of Oldfield value has been demonstrated by the increase of 165% in business for the first five months of 1922 over the corresponding period of 1921.
