

THE BLUE AND WHITE DOTTED

Blue and white dotted foulard makes this charming afternoon gown popular for summer wear.

WEAR BEADS AND BRACELETS

Women Still Give Preference to Costume Jewelry Which Includes Great Variety.

Costume jewelry is the one fad of the season, with a leaning toward the semi-precious stones. The Staffordshire pottery beads in their soft colorings have been used, and the Wedgewood beads would be popular if they were not so difficult to procure.

Some Beaded Chaperons plus are worn, with their silver mountings and topaz and amethyst settings. A chain of amethyst set in silver makes a very attractive costume decoration.

Bracelets rim the gams, but Chinese bracelets of glass in jade black and goldstone effect are worn, some three two or three together.

A carved and twisted snake bracelet of dark tortoise shell is worn with hoop earrings of tortoise shell.

Fancy effulgent glasses matching sweaters in contrasting color are worn by the younger set, and a few like discs of cut steel circles or diamonds held together with fine steel chains.

They wear large, matching frocks in color are used, those having the round colored-silk-hold tops leading in favor.

VEILS OF CREPE DE CHINE

Material Offers More Protection Than Chiffon for Face Covering—Match Hat or Frock.

Veils are coming back strong, and many of the small beading hats are veiled with veils, both of the heavy meshed French type or of chiffon. The latest thing in veils worn at resorts is the sun-glass lighter type of crepe de chine, very thin and sheer with beaded ends, matching in color either the hat or frock, and worn as protection for the skin, as being more practical than chiffon or acetate.

Some large square French veils with open mesh have borders of chiffon hemstitched on and are worn on the face, and occasionally one sees one of these draping a hat, while over the face is worn a fine French complexion veil.

Artistic Curtains. Grey is one of the best tones in high favor for curtains this season. However, it is usually combined with more colorful tones.

Warm Secret.

An interesting suggestion for use in connection with soldering iron or steel is to make a swab from flexible electric light cord, which is used in scrubbing on to the work a solution made by dissolving a bit of zinc in muriatic acid and then diluting with a little water.

Stories of Great Scouts By Elmo Scott Watson. Western Newspaper Union.

HOW "LIVER-EATIN'" JOHNSON GOT HIS NAME

Among the scouts who were with Gen. Nelson A. Miles, when that officer inflicted his crushing defeat upon the Sioux chief, Crazy Horse, at the battle of Wolf Mountain, Mont., in 1877 was one bearing the strange name of "Liver-Eatin'" Johnson. Johnson was a powerful Norwegian, weighing more than 300 pounds and standing six feet, three inches in his moccasins-clad feet.

refused to wear a hat, and when he went into battle with this golden mane in the wind, he looked like an ancient Norse viking.

Johnson had won his name in a gruesome way. Two stories about this are told, differing slightly in detail, but agreeing in the main facts. One tells how a party of Indians had raided a trading post on the Missouri River, but were driven off with heavy loss.

The other story seeks to justify Johnson's act. A Cheyenne chief had raided and burned Johnson's camp while he was away on a trapping expedition. When he returned and saw the ruins, he swore that he would kill the Cheyenne and eat his liver. Later he made good his threat.

son's lack of headgear and called him a "yaller-headed Injun," because, as he said, "every decent white man wears some sort o' coverin' for his scalp." But Johnson was firm in his convictions, and in the fight with Crazy Horse's Sioux he justified himself—to his own satisfaction, at least.

As Beldier and Johnson charged up the snow-capped slopes of Wolf mountain that morning against entrenched Indians, a bullet cut a furrow through

Liver-Eatin's hair, "like a pair of red-hot sheep shears," as he said. "Now you see!" he exclaimed to his "pardner." "If I'd had a hat on, it'd bin plumb ruined!" Little is known of Johnson's later history. He was a scout at Fort Custer 1881, when the young chief Sword Dearer tried to stir up the Crows against the whites and scouted for the troops during that brief war.

Discounting the "Discount" in Advance You don't have to be a shrewd bargainer to get the bottom price on the new Goodyear Cross-Rib Tread Cord. Instead of listing it at a high price, to enable the dealer to attract you with a so-called "long discount," we list it as low as we profitably can. You can see from the figures below that its advertised price is lower than the net price you are asked to pay for many "long discount" tires of unknown value. We believe the average man would rather buy tires on this frank and open basis, and assure himself a product of recognized worth. The new Goodyear Cross-Rib Tread Cord is made of high-grade long-staple cotton, and it embodies the patented Goodyear method of group-ply construction. In design, materials and manufacture it is a representative Goodyear product, built to safeguard the world-wide Goodyear reputation. It has a different tread from the famous All-Weather Tread Cord—a new tread with a deep, clean-cut, cog-like pattern—and it sells for from 20% to 25% less. You can get the new Goodyear Cross-Rib Tread Cord now, as well as the famous All-Weather Tread Cord, from any of the Goodyear Service Station Dealers listed here. Compare these prices with NET prices you are asked to pay for "long discount" tires. These prices include manufacturer's excise tax. Goodyear Cross-Rib Tread Cord Tires are also made in 6, 7 and 8 inch sizes for trucks. FOR SALE BY Vaughn & Goodman HEPPNER, OREGON GOODYEAR
