Draw Interest on Your Surplus

You are probably earning a little more than your living expenses. Perhaps you have a little surplus every year. But what do you do with it? Do you save a little year by year to tide you over a hard year when you come to it. Old age comes to everyone and to provide for it is one of the duties of youth. It will not require a very large annual saving to provide a moderate income in old age, but you will have to begin now to make that saving.

Our savings department pays interest at the rate of 4 per cent annually, compounding the interest every six months. If you acquire the habit of saving a certain amount every year it will surprise you how little you will miss it.
