

Asbury Park's Annual Baby Parade

Six hundred children took part in the annual baby parade at Asbury Park, N. J., this year, the record being broken. The photograph shows part of the procession of gaily decked chariots filled with infants.

WORTH KNOWING

In the East, as a general rule, Turks wear yellow slippers, Armenians red and Jews blue.

Australia is said to have about 100 species of snakes, three-fourths of them venomous.

A coin-in-a-slot machine has been invented by an Englishman to enable a passenger to learn at what speed he is traveling in a train.

Sixty coconuts to the tree is regarded as a good yield in the Philippine island plantations, although trees bear as many as 300 good nuts.

Fifty-four nurses are attached to the American forces in Germany.

Fencher fans on long handles were regarded as symbols of royalty by the ancients.

Oysters can only live in water that contains at least thirty-seven parts of salt to every 1,000 parts of water.

The Ribs club has been formed by women of Dallas, Tex., whose husbands have a social organization called the Bonehead club.

To reduce mortality and counteract the effects of malnutrition numerous German municipalities have established schools in the woods.

WONDERS OF THE CENTURY

Marvels That Are Accepted as Commonplace by the Citizen of the Present Day.

William Allen White, editor of the Emporia (Kan.) Gazette, in an editorial in Judge, says:

"The vast mystery of natural things is so baffling that it is no wonder the mysteries of the supernatural are neglected in these days of marvels. The big, imponderable old world is shrinking and revealing itself as a speck of cosmos around which its inhabitants may ride in a few weeks, write in a few minutes and talk in a few seconds.

"Within the memory of living men the railroad has divided distances by ten and steam and electricity have speeded up time in the ordinary processes of life's business a hundred fold. Middle-aged people can recall the days when there were no telephones, no electric lights, and young people in their middle twenties remember when automobiles were toys and the moving picture was an experiment just coming to commercial use. And much of the difference between the American of today and of Monroe's day is due to the physical discoveries that a hundred years have developed.

"These physical discoveries have changed men's creeds, revised men's attitude to God and man, rebuilt their institutions, made them braver because they could afford courage, made them kinder because they could afford kindness, and wiser because knowledge of life was forced upon them by the civilization in which they live."

GILLIAM & BISBEE'S COLUMN

Come and get the county agent's machine for the dry treatment of your seed wheat with copper carbonate. The work is done perfectly and economically. Get your order in early as it takes some time to make one.

We have sold all kinds of chain drills but have decided that the Kentucky Double Run feed is the best suited for this territory. Come in and look them over for yourself.

The Revolving Rod Weeder are the ones that get the weeds.

If you are going to use the dry treatment for your seed wheat you cannot afford to pass up the Calkins machine.

WE PRODUCE PRINTING THAT PLEASES

Where Extra Service is Demanded Firestone Cords Predominate

WHEREVER the exactions and tests of tires are most severe—there you will find Firestone Cords in universal use.

The hard jobs seek Firestone. And so well has Firestone responded under difficult conditions—so consistently has mileage mounted to totals impossible to obtain from ordinary tires that today Most Miles per Dollar is the buying slogan of thinking motorists everywhere.

The blending and tempering of rubber, gum-dipped cord construction, air-bag cure—all these mileage methods have

been developed by men whose life work is the production of constantly increasing tire values for the public.

Users in this vicinity verify Firestone reputation, and report almost daily some new Firestone record of extra distance travelled.

Don't be satisfied to buy tires—buy values—the longest mileage at the lowest price consistent with such reliable performance.

Make Most Miles per Dollar your principle of tire economy—choose your next tire on that basis.
