GILLIAM & BISBEE'S COLUMN

Come and get the county agent's machine for the dry treatment of your seed wheat with copper carbonate. The work is done correctly and economically. Get your order in early as it takes some time to make one.

We have sold all kinds of grain drills but have decided that the Kentucky Double Run feed is the best suited for this territory. Come in and look them over for yourself.

The Revolving Rod Weeder are the ones that got the weeds.

If you are going to use the dry treatment for your seed wheat you cannot afford to pass up the Calkins machine.

GILLIAM & BISBEE

LEGAL NOTICES

SUMMONS
IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR MORROW COUNTY.

Arthur Smith and Elizabeth Smith, Plaintiffs, vs.
Antone Abrahamick, Jr., and Johanna Abrahamick, Defendants.

IN THE NAME OF THE STATE OF OREGON: You, and each of you, are hereby required to appear and answer the Complaint filed against you in the above entitled suit on or before six (6) weeks from the 10th day of October, 1922, to-wit: On or before the 22nd day of November, 1922, and if you fail to so answer, the plaintiffs will apply to the Court for the relief prayed in the Complaint herein, to-wit: For a decree of

the Court decreeing that you, nor either of you, have any estate or interest in or to the following described real property, or any part thereof, to-wit:

"Commencing at the Northeast corner of Lot numbered Ten (10) in block numbered Five (5) in the town of Heppner, County of Morrow, and State of Oregon, running thence South Eighty (80) feet, thence West Thirty (30) feet, thence North Eighty (80) feet, thence East Thirty (30) feet, to the place of beginning."

For such other and further relief as may in equity be just. This Summons is served upon you by publication hereof once a week for six (6) consecutive weeks in the Heppner Herald, a weekly newspaper of general circulation, in Morrow County, Oregon, published at Heppner, by virtue of an order duly made and entered herein on the 2nd day of October, 1922, by the Honorable W. T. Campbell, County Judge of Morrow County, Oregon, and the date of the first publication of this Summons in October 10th, 1922, and the date of the last publication hereof will be November 21st, 1922.

VAN VACTOR & BUTLER, Attorneys for Plaintiff, Postoffice Address: The Dalles, Oregon. 24-30

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at The Dalles, Oregon, November 8, 1922. Notice is hereby given that John J. McDonald, of Hardman, Oregon, who, on Oct. 26, 1920, made homestead entry, No. 020293, for W 1/2 N 24 E, Sec. 20, T. 5, S., R. 25 E., Lots 2, 3, NE 1/4 SW 1/4, NW 1/4 SE 1/4, SE 1/4 SE 1/4, Sec. 5, SE 1/4 NE 1/4, Section 6, Township 6, S., Range 25 E., Willamette Meridian, has filed notice of intention to make final Proof, to establish claim to the land above described, before J. A. Waters, United States Commissioner, at Heppner, Oregon, on the 20th day of December, 1922.

Claimant names as witnesses: W. A. McCarty, Lotus Robison, Raymond Steers, Robert Steers, all of Hardman, Oregon. J. W. DONNELLY, Register.

NOTICE TO CREDITORS

Notice is hereby given that the undersigned has been duly appointed by the County Court of the State of Oregon for Morrow county, as Executor of the Last Will and Testament of W. O. Minor, deceased, and that she has qualified as such.

All persons having claims against the said estate must present them to the undersigned, properly verified, at the office of Woodson & Sweck, attorneys, in Heppner, Oregon, on or before six months from the date of the first publication of this notice. Date of first publication October 31, 1922.

MAHALA MINOR, Executrix.

CALL FOR CITY WARRANTS

All general land warrants, City of Heppner, registered on or before October 8th, 1921, will be paid on presentation at office of City Treasurer on and after November 10th 1922, at which date interest on said warrants will cease.

Dated at Heppner, Oregon, October 30th, 1922. LEON W. BRIGGS, Treasurer City of Heppner.

GRAND DUKE CYRIL

Grand Duke Cyril recently started Paris by proclaiming his right to the throne of Russia. The day the death of the czar and his entire family becomes an accepted historical fact, then Duke Cyril becomes the rightful heir to the throne, should the time ever come for re-establishment of the royal family. The duke is well known in French society.

LEACOCK HAD OTHER PLANS

Distinct Reason Why in Death He Could Not Lie Beside Lord Strathcona.

G. B. Burgin, in his recently published "Memoirs," relates the following anecdote: A short time ago Stephen Leacock was the guest of a literary club to which I belong, and when I was called on to speak I explained how that morning I had been walking in Highgate cemetery and paused by the tomb of Lord Strathcona. One of the cemetery custodians joined me, and said, regretfully, "Lord Strathcona's the only distinguished Canadian we have here." Then he brightened up a little. "But there's a vacant lot beside his lordship." Whereupon I explained to him curiously enough that I was going to meet another distinguished Canadian that evening, and would try to induce him to make the necessary arrangements for occupying the vacant space by Lord Strathcona. Leacock listened to this with strained attention. On rising to reply, he disregarded the points made by the other speakers, and said: "Whilst I am deeply grateful to Mr. Burgin for his thoughtful arrangements regarding my obsequies, I regret to inform him that they will have to be canceled, as I have already decided to be buried in Westminster abbey."

FIGHT MINE FIRES WITH MUD

Experience Has Shown That is as Practical a Method as Any Known.

Fighting fires in mines is a slow, tedious job and since the dawning of mining has been considered almost a hopeless undertaking. Rich mines in many parts of the world have been burning for generations. Underground fires no longer are considered unquenchable. In the Butte district a process of fire fighting has been developed by a mining company which is salvaging an ore body of tremendous extent. Fires that have been burning for 15 years in three connecting mines are being smothered under 1,000,000 tons of mud.

At the end of 1922 2,000,000 tons of metalliferous ore, containing, according to expert estimates, at least 80,000 tons of copper, once more will be accessible.

Sand, decomposed rock and other materials which came originally from the slopes and were discarded as tailings in the process of copper extraction, simply have been turned back into the fire area. Water, which in many cases has proved its usefulness as an extinguisher of underground fires, is used for transportation. It conveys the tailings down to the fire regions, 1,500 to 2,200 feet underground, where the soupy slime fills the abandoned drifts, cross-cuts and stopes and literally smothers the fire.

Interesting to Archeologists.

A Roman-British grave has just been discovered on Ham Hill, Somerset, England. On the east side of the Roman encampment was unearthed the complete skeleton of a young adult, probably a male. The grave was about two feet in depth, lying due north and south, the head and shoulders being inclosed by slabs of Ham stone. On the right of the head lay a shallow dish of Roman-British black pottery. This was broken in three places, probably by the superincumbent earth, but with the exception of a small portion of the rim it was possible to restore it. Near the head lay a crude and barbarous copy of a Third or Fourth century A. D. Roman brass coin. This had probably been placed in the mouth to enable the dead man to pay his fare to Charon, the ferryman, for taking him across the Styx. Near the right hand of the skeleton lay an oval hammer stone or pounder.

Homespun Jeans.

A suit of clothes made from Kentucky homespun jeans now is a rarity but the cloth still is produced in a small way in remote sections of the mountain country. There the old time methods of carding the wool, spinning and looms are practiced in the production of the finished cloth for which Kentucky once had a nation-wide reputation.

Kentucky statesmen of the older period always appeared attired in jeans and occasionally now men are to be seen wearing a homespun-jeans suit of the most modern sartorial cut giving the wearer an air of distinction.

In most cases the mountain looms now are devoted to weaving rag carpets, in which handwork many of the women are experts. Many visitors have marveled at the blending of colors and the artistic designs in rag rugs woven on a mountain loom.—Louisville Courier-Journal.

Important Qualifications.

"I have heard that you do not regard any man as well fitted as yourself to fill the position to which you have been elected."

"I never said that," replied Senator Sorghum. "Possibly a number of men could fill the position. But I will say that nobody I know of has the experience and the fortitude to stand the campaign primaries as well as I do."—Washington Star.

Extravagant Sympathy.

"Did you get any satisfaction when you reported the theft of your car to the police?"

"Not much," replied Mr. Chuggina. "The idea seemed to be that I ought to be ashamed of myself for being so careless as to own a car and leave it around as a temptation to some poor chap who don't own one."

THE FALL SKIRTS

Long and Short Effect Combined in Latest Garment.

Two-Material Outfits Promise to Be in Limelight; Contrast to Develop the Trimming.

Out of the mixture of the newer fashions that are being presented to the public as advance models, says a fashion authority in the New York Times, we glean the following leading facts which are pertinent to the development of the fall fashions and which will be more than useful to any one who has to have her clothes designed at the present time.

Long skirts there will be beyond the shadow of any doubt, but they can have interstices of short spaces incorporated in their making so that, at one point they will be quite short while at exactly the opposite points they will fairly be trailing on the ground.

Many of the fall dresses will be made up on a combination of two materials, say, velvet and silk, or velvet and wool or silk and wool or silk and fur fabric, or velvet and real fur. When this is the case there will be little or no extraneous trimming and the contrast of the two fabrics will be used to develop the trimming interest of the gown.

Waistlines will be long—well over the hips—and they will at that point be adorned with trimmings of beads or twisted ribbons or velvets made into rolls or any other such material which happens to harmonize with the general interests of the gown itself.

The neckline will, in all cases, be as plain as possible, the bateau line being the one which is most favored from among them all. At this point there will be absolutely no trimming but the line of the gown left entirely plain will be left to hold the honors for the costume at that point.

Sleeves will be wide and long. They will be embroidered heavily and often the embroidery applied at this point will be the only sign of trimming in that direction. There will be the whole plain gown which is embroidered in many startling and vivid colors over the sleeve ends and which will have the rest of its surface nothing but a plain color and a chaste line to make it famous.

Girdles and sashes will be very much a feature of the modern gown. They will be colorful in themselves and even when the gown itself is sombre in its expression the girdles will serve to add some hint of a vividness of expression.

WIDER RIBBONS FOR GIRDLING

Strands Resemble Strips of Metal Brocade; Excellent Means of Doing Over Old Dresses.

Ribbons of more width are used for twisted girdles and for panels at the sides of skirts. They look like strips of metal brocade, and really that is what they are, though woven in ribbon widths. In some instances a whole bodice is made of this metal or plain brocaded ribbon and one interesting gown had the draped bodice running off into a sash that fell in a big bow at one side of the back and fell in a long train over the silver-cloth underskirt.

This is an excellent means of doing over old dresses, for a bit of new ribbon added to the old foundation does wonders in the way of freshening a frock to face a new season's wear. And for this coming season, particularly, one will have to resort to a good deal of cleverness in the way of making over, for the gowns of last winter are going to look a trifle scant when slipped from their hiding places. However, no discouragement is necessary, until one has considered ways and means of bringing them up to date and making them look like something designed especially according to the last word of fashion.

"TAM" IS OF TAUPE DUVETYN

This fascinating "tam" is of taupe duvetyn, with attractive embroidery in brilliant coloring.

Sweater Belts. Narrow, colored leather belts will be used on sweaters this autumn replacing the white belts that have been favorites through the summer.
