### GILLIAM & BISBEE'S COLUMN

Come and get the county agent's machine for the dry treatment of your seed wheat with copper carbonate. The work is done directly and economically. Get your order in early as it takes some time to make one.

We have sold all kinds of grain drills but have decided that the Kentucky Double Run feed is the best suited for this territory. Come in and look them over for yourself.

The Revolving Rod Weeder are the ones that get the weeds.

If you are going to use the dry treatment for your seed wheat you cannot afford to pass up the Calkins machine.
