"There was a warm wind when he left Heppner reports H. A. Duncan, who arrived at the Imperial from Morrow county yesterday. "The sheep are on the hills and everyone feels good. We had 13 inches of snow recently, but it was accompanied by a wind and the snow drifted, so that it did not do the wheat land as much good as it otherwise would. However, the ground was damp and much of the snow melted into the ground. The streams are not swollen. Willow creek, which runs through Heppner, is gradually being deepened. Along in July and August when there is only a couple of feet of water, the center of the creek bed is plowed and thus the creek is being deepened and straightened." Mr. Duncan is a merchant. He says that there has been a good holiday business in Heppner, in fact, business has been very satisfactory for any months past.—Oregonian.

COPPER CARBONATE TREATMENT ENDORSED BY WASHINGTON AGENTS

County agents in Franklin and Douglas have written County Agent Calkins that the copper carbonate treatment against wheat grass rust has resulted in their counties last season and that approximately 30,000 acres in each county has been seeded this year with copper carbonate treated seed. This treatment not only insures a better yield but effects a saving of some 20 per cent in the amount of seed needed.

The Eats That are TREATS

We make it our business to sell meats for eats that are real treats. And we don't comply with the food laws because it is compulsory—we do it because we want, and expect to get good service and fair treatment from merchants and professional men with whom we deal, and because we know it is our business to sell only the best.

For breakfast, lunch, or dinner we can supply your wants, no matter how elaborate or how conservative. We have arranged to fill all orders and would like to see your meat order.
