CASE FURNITURE COMPANY ACQUIRES VARIETY STORE

A deal was closed during the week whereby the Case Furniture Co. purchased the entire stock of the Cash Variety Store from the owner, Miss Helen V. Smith.

The stock will be moved to the Case building and added as an additional line to the big stock of home furnishing goods already carried.

Miss Smith has done a flourishing business since opening here some two years ago and the line will no doubt prove a profitable one operated as a part of the Case store.

Miss Smith has not yet decided on just what she will engage in but being a very capable business woman she will no doubt soon find a desirable opening.

Four Reasons Why You Should Buy Your Ford Car This Month

— I —

The unprecedented demand for Ford Cars throughout the winter months has taken the entire output of the Ford plants working at capacity, indicating that the demand this Spring will be far in excess of the number of Ford Cars that can possibly be built.

— II —

January was the tenth consecutive month in which retail deliveries exceeded 100,000 Ford Cars and Trucks. Requirements for February, the month when preparations are already under way for Spring business, called for 148,407 Cars and Trucks—more than 24,000 in excess of the number we can possibly produce.

— III —

Ford dealers in many parts of the country are already finding it necessary to specify future delivery dates on Ford Products because there are no reserve stocks to draw from.

— IV —

Your order placed now will protect you against delay or disappointment later on—it is the only way you can be assured of reasonably prompt delivery.

We consider it important to give you these facts, so that if you are planning to purchase a Ford Car, Truck or Fordson Tractor to use this spring or summer you can list your order at once and take advantage of our dealer's first opportunity to make delivery.
