PERFECT SPRING WEATHER INDICATION OF PROSPERITY

Old timers in the county say that not in many years has Morrow county been favored with finer weather at this season and never before, in early April, has the outlook been better for a bumper crop of wheat.

Frank Gilliam, local weather observer, reports that already April showers have given us a fraction more than one inch of moisture. The heavy rain Saturday afternoon accounted for .58-of an inch of the precipitation for the month. Saturday's storm was a typical eastern Oregon thunder shower, there being some vivid flashes of lightning and a dash of small hail.

From all over the county come reports of wonderful fields of wheat and from the lambing camps come reports of around 100 per cent markings.

Gay M. Anderson has bought the Calkins bungalow on Chase street and took possession Sunday, April 8th. Mr. Anderson put in his residence property on the east side as a part of the consideration which was \$4500.00.
