BOOST THE RODEO

Every man, woman and child in Heppner should, during the next ten days resolve themselves into a committee of one to boost for the Rodeo. It's our Rodeo and about our only play period during the entire year. Let everybody get the spirit and tell everybody else what a fine entertainment it is going to be. The committee in charge are working hard, and without pay, to make the show a big success and if it should fail, in any particular, it will not be their fault but because of lack of interest and enthusiasm in the rest of us.

The committee urges every business man to get into his wild west togs and get the spirit. It comes but once a year. Let's all get into the collar, get behind the committee and boost. Wear your flaring shirt and your big hat or colored neckerchief. Be a boy or girl again for three days.

CLEAN UP THE TOWN

In a little more than a week Heppner hopes to entertain a record crowd of visitors. The Rodeo was well patronized last year and the coming meeting bids fair to attract a much larger crowd.

Every effort should be made on the part of the city officials and every citizen to make the town as attractive as possible to our guests.

There is much that can be done along that line in the way of cutting weeds and cleaning up vacant lots and other properties and all that is needed to make a big change in our municipal appearance is a little united action and a considerable degree of civic pride released in ways that will do the most good. Many families have been out of town during the summer and their properties have been neglected. In many of the residence districts sidewalks are so overgrown with weeds as to make navigation on the part of pedestrians at once difficult and disagreeable, a condition that we surely do not want to inflict on our visitors whom we have invited to come here for a few days by way of enjoying themselves.

The Herald has no copyright on these suggestions and the way is open for our city officials to take whatever steps may be necessary to have these unseemly conditions remedied.

Towns, like individuals, should on occasion "put the best foot foremost" and certainly no more opportune time could be chosen than an occasion when we will be hosts to many visitors whom we have invited to be our guests.

A hint from the mayor, delivered through the chief of police and street commissioner should be sufficient. Give property owners a chance to clean up before a certain date and if they ignore the invitation then let the city have it done and charge it to the property.

Let's make the old town spick and span for the Rodeo. Let's go.
